## SOVIETS AGREE TO RECOGNIZE DEBTS

Russian Delegation Demands in Return, However, Recognition of Their Government and a Loan

### REPLY TO ALLIED EXPERTS

Agreement Sets Forth Willingness to Admit Pre-War and War Debts of Czarist and Regimes

(By United Press)

Genoa, April 21.—Russia agreed to recognize both pre-war and war debts, including those of the Czarist and Kerensky regimes and to discuss proper rights of foreigners within her borders, in her reply to the allied experts' proposals, delivered by the soviet delegation here.

In exchange for this she demands dejure recognition and a loan. This is the official reply of the soviet delegation presented to the allies late this afternoon.

The political commission of the Genoa conference to which the reply was presented to the allies late this afternoon.

The political commission of the Genoa conference to which the reply was presented, accepted it as "very hopeful basis for resumption of discussion."

A committee of experts has been appointed to consider the Russian note.

The main conditions upon which Russia will comply with the terms laid down by allied experts are three:

1—Dejure recognition of the soviet government by the allies.

2—Immediate financial assistance from the allies in the shape of a large loan.

3—Agreement as to "writing down" the war debt with certain counter claims and postponing payments.

The reply stated very definitely Russia would recognize the Czarist and Kerensky debts only upon the condition the soviet government was afforded the official recognition granted its predecessors.

## TO BUILD \$15,000,000 PLANT AT GARY, IND.

E. H. Gary, Chairman of United States Steel Corporation, Makes Announcement in New York

### TO ISSUE \$10,000,000 IN BONDS

(By United Press)

New York, April 21.—E. H. Gary, chairman of the United States Steel corporation, announced a plan to-day to build a fifteen million dollar plant at Gary, Indiana, for manufacturing of Lapp and Butt well tubes.

The plant will be built by the National Tube company and will be financed partly by an issue of ten million dollars in bonds and partly from the cash surplus.

The capacity of the plant will be 350 tons a year, it was said. This will add between 20 and 25 percent to the steel corporation tube capacity.

Work will be started immediately. Production, it is expected, will get under way in eighteen months.

Seven million dollars of Indiana Steel, 5 percent bonds, and a three million dollar National Tube, 5 percent bond, have been sold to a syndicate headed by J. P. Morgan and Company, to finance construction.

### ONE OF CREW LOST

Richmond, Va., April 21.—The steamer Brewster went down with the loss of one of her crew following a collision with the Lake Sterling early today in the James river near Oldfields, 50 miles below Richmond. The Brewster was owned by the Buxton line and the Lake Sterling by the Richmond-New York line.

## BOARD CHARGES SHORTAGE

Affairs of Ex-Treasurer of Montgomery County to be Probed.

Indianapolis, Ind., April 21.—A shortage of \$10,387.11 was charged in the accounts for 1921 of Harry Stout, ex-treasurer of Montgomery county, by the state board of accounts today.

A small shortage was charged for 1920.

Stout, however, made good the shortages before he left office, the report of the board said. His case is now in the hands of the county prosecutor, for grand jury investigation, the board said.

## CONGRESS TO AID FLOOD SUFFERERS

Appropriates Million Dollars to Strengthen Mississippi River Levees Immediately

### ANOTHER LEVEE GIVES WAY

Russellville, Ill., Homes Are Washed Away When Wall of Water Rushes Down on Small Town

(By United Press)

Washington, April 21.—Congress today came to the aid of flood-stricken lowlands along the Mississippi river. Within an hour after reconvening, both houses passed an appropriation making one million dollars available to strengthen the river levees. President Harding's signature is expected late today or tomorrow.

Vincennes, Ind., April 21.—Another levee holding back the flooded Wabash river gave way at Russellville, Ill., today and sent a wall of water rushing over the little town of two hundred inhabitants.

Homes were inundated and many of them were carried away in the turbulent current formed by the joining of the Wabash and Ambraw rivers.

Most of the residents have been living in boats during the last few days or with boats chained to their front doorstep. They paddled out into the stream and five miles down stream to Vincennes where they joined 1,000 local people made homeless in the flooding of thirty-five city blocks here.

Situated near the junction of the Wabash and Ambraw rivers, both of which have been on flood rampage for several days, Russellville was in a perilous position. One levee broke there yesterday and a levee holding back the Ambraw gave way a short time later.

The Ambraw rushed across miles of the Allison prairie and stretches of it joined the onrush of the Wabash, making a veritable lake miles wide.

Flood conditions in the Indiana "pocket" region and in Illinois across the river are the worst in years. In some places more damage has been done than in 1913.

A thousand people are in temporary quarters at the fair grounds north of Vincennes. The river is flowing through their homes on streets where the overflow reaches a depth of six to eight feet.

The Salvation Army, the Associated Charities and other organizations of similar character are on the job administering relief. They make trips in boats to homes which some families refused to leave as the water continued to rise.

## Two Centenarians

Washington, Ind., April 21.—Two centenarians are boasted by this town of 9,000 people.

Andy Rafferty is 102 years old.

Sarah Canan is 104.

Both are feeble. Rafferty worked at the Baltimore and Ohio railroad shops up until ten years ago when at the age of 92 he was retired with a pension.

He has no recipe for longevity. He smokes three or four times daily and chews tobacco moderately.

Back in 1916 B. P. (before prohibition) Andy used to like wine and song. Now he enjoys an occasional song.

## SUIT AGAINST A TRUSTEE IS HEARD

Charles V. Carr Demands \$100 Damages From Lew Lewis, Walker Township Official

### FOR SHEEP KILLED BY DOGS

Settlement Never Arranged Because Trustee Would Only Pay \$70 For Lost Animals

The case of Charles V. Carr against Lew Lewis, trustee of Walker township, was being tried today in the circuit court before a jury, and it was expected that the evidence would be in and given over to the jury late today.

The plaintiff is demanding \$100 judgment for sheep killed by dogs in the township, and the trustee is said to have wanted to pay only \$70 for the damage.

The plaintiff was the first witness for his case, and he stated that two dogs attacked his sheep on a Sunday morning about a year ago, and that four head were killed and several died of fright, and that the two dogs returned again that night, at which time more sheep were killed.

Lew Lewis, trustee, was called Sunday morning and with two appraisers the loss was fixed, but the trustee deemed the value too high, and refused to make the payment, which accounted for the action being brought into court, in which the plaintiff seeks \$100 damages.

A jury was quickly secured this morning and the following men are hearing the case: James Rhodes, George Billings, Charles Lamberson, Michael Lovett, William Rawlings, Fred Pike, W. H. Hinshaw, John Jordan, Hays Beaver, James William, Jess Murphy and William Grocox.

A suit was filed today in the circuit court by Bertha M. Capp against Sidney L. Hunt, sheriff of Rush county, in which the plaintiff is seeking to replevin a Hupmobile roadster, which the sheriff is said to have taken on a court judgment, and which the plaintiff alleges belongs to her, and not her husband, who was a defendant in a court action.

## TWELVE SENIORS TO BE AWARDED DIPLOMAS

Annual Commencement Exercises of Manilla High School Set For Next Thursday Night

### BACCALAUREATE NEXT SUNDAY

Twelve seniors will receive diplomas when the commencement exercises of the Manilla high school are held at the Manilla school auditorium next Thursday evening. The class address will be delivered by Albert Stump of Indianapolis and a musical program will be provided by Hill's orchestra of Shelbyville.

The baccalaureate sermon will be delivered next Sunday evening by William A. Young of this city, who is pastor of the Manilla Christian church, at the school auditorium.

The seniors this year are as follows: Herbert Stanley Carmony, Margaret Lenora Edwards, Ernest Archie Copple, Alma Fay John, Thomas Jefferson Brown, Allie A. Gordon, Forrest Clifford Lowden, Helen Nada Phares, Clyde A. Baker, Hazel Irene Gahimer, William Donald Solomon and Carrie Leona Wall. The class motto is, "Build for character, not for fame." The class flower is the pink rose and the class colors are rose and gold.

### KILLS WIFE AND SELF

Terre Haute, April 21.—Joseph Ferneti, who disappeared some time ago, with money of a dry cleaning establishment in which he was interested, returned to Terre Haute Thursday night, shot his wife and killed himself. He is the son of a Jacksonville, Florida, man.

## CAST FOR SENIOR PLAY ANNOUNCED

"The Far-Away Princess" to be Given at Graham Annex Auditorium Next Week

### LAI'D IN LAND OF ARCADIA

Romantic Comedy With Music Said to be Different Than Usual High School Play

The Senior class of 1922 of Rushville high school will present "The Far-Away Princess" at the Graham Annex Auditorium next Thursday and Friday nights. The reserved seat sale opens at Pitman and Wilson's drug store Saturday at 1 p. m.

The play, which is produced and directed by Denning Havens, is a romantic comedy with music. The play is of a different sort from the kind usually given by high schools. Judging from rehearsals, outsiders who have witnessed the play and who are authorities on dramatic art have pronounced the show a great success.

The scene is laid in the land of Arcadia. The time is the present. The curtain rises on a scene in Madam Lindermann's garden, and the time is late in the afternoon. The second act is in the same surroundings and on the night of the same day. The time is the present.

The cast of characters was announced today as follows, in the order of their appearance:

McKee, a guest at the Inn—William Frazee.

Jim Grayson, a surveyor—Louis Smith.

Marie, an Italian flower girl—Helen Gray.

Tony, an organ grinder—Horace Pearsey.

Rosa, a maid—Helen Bebout.

George Brent, an American lawyer—William Sparks.

Prince Orloff, a guest—William Kramer.

Madam Lindermann, an inn keeper—Mildred Norris.

Pedro, a student—Loren Hunt.

Juliano Lindermann, a hen-peck husband—John Ryan.

Sam Williams, an American constable—Carroll Nipp.

Madam LaSelle, an ambitious mother—Helen Pierson.

Marcel and Felice, her daughters—Martha Fanning and Margaret Herkless.

Edward, a lackey—Ivan Alexander.

Baroness Brook, waiting maid to the princess—Virginia Haydon.

Princess Marie Louise—Rowena Kennedy.

Rose girls—Margaret Bell, Mary Walker, Marjorie Kendall and Laura Jordan.

Gypsy girls—Rasora Chance, Aileen Geraghty, Marie Hobbs and

## CONFESSES TO BRUTAL MURDER OF A WOMAN

Thomas Roach, Chicago Street Car Conductor, Admits Killing Blond Found in a Moving Van

### HE DIDN'T KNOW HER NAME

Chicago, Ill., April 21.—Thomas Roach, 27, today confessed to the brutal murder of an unidentified blond woman, whose nude body was found in a moving van on the South side here, according to William O'Connor, police lieutenant.

Roach, according to O'Connor, met the girl and took her to his apartments. "We quarrelled," Roach was reported to have said. "I took a gun and beat her with it. I saw she was dead, so I carried her out and placed her body in a moving van." Roach said he did not know the name of the girl.

Police are trying to decipher two postal cards from New Haven, Connecticut, which it is believed were addressed to her. Roach, according to O'Connor, is a street car conductor. Following Roach's confession, police sought Russel Mosley, who, according to O'Connor, was with Roach at the time of the crime.

## 30,000 PEOPLE HOMELESS

Thousands of Monastir Inhabitants Flee, Fearing More Explosions

(By United Press)

London, April 21.—Thirty thousand inhabitants of Monastir and vicinity are reported homeless today as a result of the terrific explosion of a munition train which caused the death of hundreds of soldiers and many children.

The explosion was first reported as having occurred at Salonika. Later dispatches from Belgrade showed it took place along the railroad running into Monastir.

Part of the city is still burning and owing to danger from shells and explosives, thousands of inhabitants have sought refuge in the woods.

## CITY WATER MUST MEET THE TEST

It Must be Absolutely Free From Any Poisonous Substances and Bacteria, It is Stated

### SERVICE COMMITTEE TO ACT

Will Put Forth Big Effort to Have Water in Indiana Best of any State in the Union

(By United Press)

Indianapolis, Ind., April 21.—Indiana city water must be made the best in the United States.

Water must be absolutely free from typhoid and other dangerous bacteria.

It must be free from other poisonous substances and substances that give it a bad flavor.

These are some of the things the water companies in Indiana must attain according to John McCordle, chairman of the Public Service commission as he outlined a program today to bring this about.

He plans to draw up a rigid set of rules and regulations, he said, governing water companies both private and municipal.

These rules will be laid down by a state wide committee including twenty-one prominent men and women of the state as well as officials of the commissioi.

On inviting members to serve on the committee McCordle explained the purpose of the program as follows:

"This commission has always striven to bring the service of the various Indiana utilities to the highest standard of excellence. It is a source of considerable gratification to the Commission that at this time the public utilities in Indiana generally are in excellent condition while, at the same time, utility rates have been held to a lower basis than anywhere else in the country.

"Heretofore, rules and standards of service have been adopted for various classes of utilities, and the effect of the adoption of these rules and standards has been very gratifying. However, rules and standards for water utilities have not yet been adopted. The water utilities of this state are in excellent condition and are rendering service which will compare favorably with that rendered by similar utilities in most other states.

"The Commission, however, is desirous of bringing all Indiana water utilities to a standard of perfection unsurpassed anywhere throughout the United States. Because of its relation to the public health and to the protection of property, the water supply of a city or town is so important that we can not render a greater public benefit than to insure to the cities and towns of Indiana an adequate supply of pure water for domestic consumption and for fire fighting."

### TONSILS REMOVED

Mrs. A. G. Shauck of Arlington underwent an operation Thursday at the Dr. Green hospital in this city for the removal of her tonsils. She is improving nicely.

## HOW TO GET MONEY IS BIG PROBLEM

To be Hardest Task of Republican Leaders From This Time on and Keep Party Pledges

### FOUR ELEMENTS CONCERNED

Consideration of Tax Problem Always Brings up Bonus Question For Taxes, Republicans Hold

By LAWRENCE MARTIN  
(U. P. Staff Correspondent)

Washington, April 21.—A problem of dollars and cents—how to finance the government and keep party pledges—loomed today as the hardest task of Republican leaders from this time on.

The problem is complex, but here are its elements:

1—Taxes, and how to keep them producing enough to run the government at the same time keep the party's promises to reduce taxation.

2—Tariffs, how to make it produce revenue and at the same time satisfy the demands of business and agriculture for protection against foreign competition.

3—The soldier bonus; how to pay it without ruining the party with the voters, or how to avoid paying it without ruining the party with the ex-service men.

4—The party put into effect a new tax law with the strong intimation that within a year taxes would again be reduced. Now Secretary Mellon warns of a \$484,000,000 deficit near year and income tax payments have fallen off alarmingly.

Consideration of the tax problem always brings up the bonus question for taxes, many Republicans hold, must be levied for at least part of the bonus payment. The hope is strong among senatorial bonus advocates that the foreign debt funding commission will complete negotiations by June through which \$4,000,000,000 worth of British bonds will be received in payment of Great Britain's war debt. Upon these money could quickly be realized to pay the bonus. But President Harding will not permit congress to count on those British bonds until the bonds are actually in hand.

## TWO RUSH COUNTY HOMES DESTROYED

Old Stanley Homestead North of Arlington is Struck by Lightning and Burns

### TENANT HOUSE ALSO FIRED

Two Rush county houses were burned to the ground Wednesday afternoon about five o'clock during a storm, one being the old Nathan Stanley homestead on the pike between Arlington and Carthage, and the other a tenant house on the Simon Martin farm, north of Raleigh.

The tenant house was occupied by Albert Trager and family and it was hit by a bolt of lightning while the family was at home, but on account of the severe wind, nothing was saved, and the family, which consists of nine children, had to flee from the burning structure. They could not even manage to save any clothing. A small amount of insurance will partially cover the loss. The farm is located in Rush county, near the Henry county line.

The house on the old Nathan Stanley farm, located two miles north of Arlington, was on fire at the same time and most of the household furniture was saved. The place is occupied by Mr. Sexton and his family. An insurance policy also will partially cover this loss.

### BUYS GROCERY HERE

George Sigler has sold his grocery store in West Fifth street to John Hancock of Indianapolis. Mr. Hancock is now in charge of the grocery store, which formerly was the Dick Smith grocery, and he and his wife moved into the rooms above the store today.

### Old Resident Given Up By Physicians

"Given up by five doctors, my only hope an operation. I rebelled on cutting me open, as I am 75 years old. A neighbor advised trying Mayr's Wonderful Remedy for stomach trouble. I got relief right away. I had not eaten for 10 days and was as yellow as a gold piece. I could have lived only a few days but for this medicine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at Druggists Everywhere.

## When We Promise We Keep Our Word!

If we say your battery is going to be ready for you at ten a. m. Saturday, you can depend on having it then; or of getting a phone call from us in advance explaining why it won't be ready.

And it doesn't make a bit of difference whether it happens to be a Willard Battery or some other make—you get the same consideration, the same courtesy, the same skilled workmanship.

Bring your battery to battery headquarters! You may be sure we won't try to sell you a battery if repair of your present one is going to save you money.

## MOSAIC DISEASE HARMS POTATOES

**Adequate Measures for Elimination of Ailment Must Be Taken Immediately.**

### TROUBLE SPREAD BY INSECTS

**Situation May Be Somewhat Improved by Partial Weeding Out of Worst Cases—Yield Is Reduced About 30 Per Cent.**

(Prepared by the United States Department of Agriculture.)

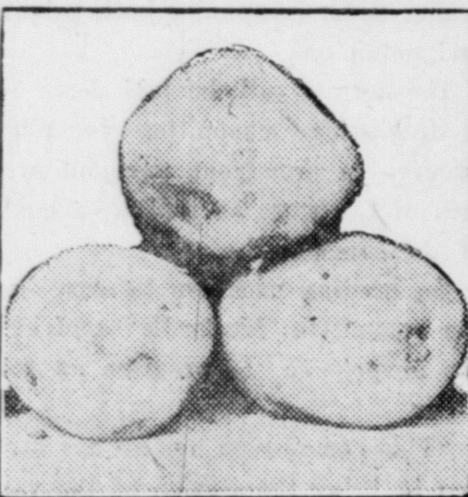

A survey of the Western states conducted during the past summer by pathologists of the United States Department of Agriculture shows that unless adequate measures for the elimination of the mosaic disease of potatoes are taken immediately the work of potato seed improvement in the West will soon become extremely difficult, if at all possible. Being of an infectious nature, the disease is spread in the field throughout the summer by means of insects which carry it from diseased to healthy plants, and it is also transmitted with the seed tubers from one generation to another.

There is no evidence that a plant once infected can recover and produce a healthy progeny at any time. On the contrary, the infected plants ordinarily under certain environmental conditions practically cease to produce tubers in the third or fourth generation. If only a partial weeding out of the worst cases is practiced, the situation may be somewhat improved, though not in all cases and by no means permanently. The mild and the medium stages of the disease left in the stock serve as perpetual sources of infection, and eventually the entire strain becomes diseased and is apt to "run out" completely.

#### Reduces Yield 30 Per Cent.

It has been repeatedly demonstrated in the East that the average reduction of yield due to mosaic is about 30 per cent. Precisely the same effect of this disease was noted in the case of all the varieties grown in different Western states. Some remarkable instances were observed during the last two years of field observations carried on by the department in which the reduction of yield in individual hills was in direct proportion to the severity of the infection.

The potato acreage in certain irrigated sections of the West has been increased this year by one-third as compared with that of the last year, yet the yield in these districts is only two-thirds of normal. Many growers complain that where 300 sacks or more were raised to the acre in former years, only 100 to 150 sacks are obtainable now. This is in fields under good cultural conditions, showing good stands and a high freedom from fungus and bacterial diseases. The low yielding quality of the strains in question no doubt is principally a manifestation of mosaic. The need of good seed in the West is well recognized.

Healthy Irish Candler Potatoes.

nized and is growing every year, yet only a meager quantity of even relatively good seed is obtainable.

There is very little, if any, hope of improving badly infected strains of potatoes, the department specialists think, therefore, prompt efforts should be made to locate the most healthy strains of the various important commercial varieties. Since there is no means at present of detecting mosaic on the tuber the search should be confined exclusively to the fields during the growing season. When the best strains are found they should further be improved by the annual elimination of all the diseased individuals.

#### Specialists Must Be Sought.

It is necessary to place this work in charge of highly trained specialists, since the identification of certain minute and peculiar characters of the disease requires a considerable experience and a great deal of pathological knowledge. Furthermore, manifestations of mosaic under the varied cultural and climatic conditions of the West are often very obscure and not yet fully understood.

### BIG NEED OF BETTER ROADS

**Engineers at Sea Regarding Highways Which Will Stand Up Under Modern Traffic.**

A. R. Hirst, Wisconsin highway engineer, has declared that the best engineers today are at sea regarding the kind of roads which will stand up under modern traffic, or the traffic which will develop in a few years. Travel by air, to any considerable extent, is still a long way off, and for a good many years to come there will be urgent need for better and better highways.

## PACKERS PLANNING A \$500,000,000 MERGER

**Idea Came From Armour Who Has no Son to Succeed Him in Industry—No New Financing**

### THREE OF "BIG FIVE" TO JOIN

(By United Press)  
Chicago, April 21.—Packers here today planned a \$500,000,000 merger, according to information in financial circles.

Three of the "big five" packers may join the combine, according to plans now being worked out. They are: Armour and Co., Wilson and Co. and the Cudahy Packing Co.

Consummation of plans would place J. Ogden Armour as chairman of the board of directors of the company and Thomas E. Wilson as president.

The idea for the merger, it was reported, came from Armour who has no son to succeed him in the packing industry. Armour has picked Wilson to succeed him, but it was said, to get Wilson he must buy him out.

There will be no new financing if the merger is completed it was authoritatively stated.

### WAY TO PLANT IRISH POTATO

**Crop Not Particularly Adapted to Small Gardens and Requires Well-Prepared Soil.**

While Irish potatoes are not adapted to growing in the extremely small garden, most gardeners prefer to include them in their list. One peck of seed Irish potatoes will plant about 300 feet of row. It seldom pays to plant home-grown seed and it is much better to use the home-grown potatoes on the table and purchase seed that has been produced in some locality especially adapted for seed growing. Potatoes require a well-prepared, rich soil, and it pays to use commercial fertilizer, well mixed with the soil of the hills or the rows. The seed should be cut two eyes to each piece, with plenty of potato attached. One piece should be planted in each hill and covered to a depth of about 3½ or 4 inches. The rows should be at least 30 inches apart and the hills 12 to 15 inches apart in the row.

# What the Consumer Buys is Service

**WHAT** you buy from the Standard Oil Company (Indiana) is service. This service may be expressed in mileage from gasoline or reduction of frictional wear from a lubricant or a good clear flame from kerosene. Every product made by this Company is designed to render a specific, definite service.

This service to be constant and dependable must be based—first upon highest technical knowledge and second upon permanency of organization. There can be no lasting service in any manufactured article unless there be stamina in the organization that makes it.

The Standard Oil Company (Indiana) has a long and honorable record in producing petroleum products of the highest quality.

This is because its organization is essentially scientific; because through a period of years it has built up a personnel of experts. These men know what the public demands from petroleum and they know how to create products which will supply this need.

Each product conforms to a standard, set to yield maximum service. The series of petroleum products made by this Company round out a cycle of service which supplies every need of the community.

As a specific example, take candles. One might think, that in these days of gas and electricity, the humble candle had been discarded, but it has not. Twenty-two million pounds of candles are consumed yearly in the United States, of which the Standard Oil Company (Indiana) last year produced 7,649,000 pounds.

Thus, through the long list of products made by this Company, the needs of small groups of people throughout 11 Middle Western States are recognized and cared for with the same forethought and efficiency, as are the wholesale requirements of motorists and manufacturers. This too, is service.

PERSONAL POINTS

—Lake Duffey of Indianapolis  
transacted business in this city to-  
day.

—A. H. Sutton, Russell Tittsworth  
and George Fossler visited friends  
in Greenfield last evening.

—Chauncey Duncan and John A.  
Tittsworth were legal business visi-  
tors in Greensburg Thursday.

—Mrs. Paul Oren and Miss Ellen  
Worsham motored to Indianapolis  
today where they spent the day.

—W. E. Inlow has returned to his  
home in this city after spending a  
few days with relatives in Indiana-  
polis.

—Mrs. Chestina Mauzy of In-  
dianapolis spent Thursday with Mrs.  
Charles A. Mauzy in North Harrison  
street.

—Mr. and Mrs. Harry Collier  
and Mrs. W. L. Downey of Greens-  
burg visited relatives in this city  
Thursday.

—Sanford Heaton motored to  
Connersville Thursday evening to  
hear Mayor Lew Shank of Indiana-  
polis speak in behalf of Albert J.  
Beveridge, candidate for the Re-  
publican nomination for United  
States senator from Indiana.

AMUSEMENTS

Noted Stars coming to Mystic

Many noted stars of the screen and  
stage were enrolled in the filming of  
"Cameron of the Royal Mounted"  
under the able direction of Henry  
MacRae, the entire story of which  
comes to the Mystic theater today,  
being photographed in the foothills  
and mountains of the Canadian  
Rockies, thus emphatically telling  
the truth in pictures.

Gaston Glass, hero of "Humor-  
esque," "God's Crucible" and other  
screen successes has again been en-  
trusted with the leading role. Vi-  
vienne Osborne, who plays beside  
him, is the well remembered juvenile  
lead of "Over the Hills," and is now  
being featured on Broadway with  
William Faversham in "The Silver  
Fox." Irving Cummings and George  
Clark head their own producing com-  
panies in California and their virile  
dramas of the Northwest are now  
being released. William Colvin, an-  
other of the east, is now in Rome  
as confidential adviser to the Ultra  
Company of Italy where Henry  
Kolker is now screening the first of  
the F. Marion Crawford stories with  
an all-Italian cast.

Gordon Griffith, the boy Tarzan of  
"Tarzan of the Apes" plays a small  
but important role and the effective  
work of Joe Singleton, Marion Mac-  
Donald and others of the east, has  
succeeded in producing a most vivid  
western drama which rings with  
truth and realism.

With The Churches

**First Presbyterian Church.**

W. L. Kunkel, pastor.  
Sunday school, 9:30 a. m. M. V.  
Spivey, supt.

Morning worship, 10:30 a. m.  
Sermon subject, "Why Waste Time  
on Spiritual Things?"

Evening service, 7:30 p. m. Ser-  
mon subject, "How do We Know We  
Have Physical and Spiritual Life."

Mid-week service Thursday even-  
ing 7:30 p. m.  
All are welcome to these services.

**Wesley M. E. Church**

The Rev. Clyde S. Black of St.  
Paul's M. E. church will preach at  
this church Sunday afternoon at 3  
o'clock. All are cordially invited  
to attend.

Sunday School, 9:30 a. m. Nathan  
P. Fletcher, superintendent.

**St. Mary's Catholic Church**

Rev. Father Francis Schaub, pas-  
tor.

Communion, 6 a. m.  
High Mass, 7:30 a. m. Low Mass  
10:30 a. m.

Instructions, Vespers and Bene-  
diction at 2:30 p. m.

Week-day masses 8 a. m.

**First Baptist Church**

Pastor, Rev. Reno Tacoma.

Sunday School, 9:30 a. m.  
Morning worship, 10:30 a. m. ser-  
mon subject "Jesus the Way, the  
Truth and the Life."

Evening Worship 7:30 p. m. ser-  
mon subject "Too Whom God Re-  
veals Himself."

Prayer meeting Thursday evening  
at 7:30 p. m.

Everybody is cordially invited to  
these services.

**Little Flatrock Christian Church**

Pastor, Rev. Talmage Defrees.

Bible school, 10 a. m. Daul Daub-  
enspeck, superintendent.

Preaching services at 11 a. m. by  
pastor.

There will be no evening service  
as the pastor will deliver the bac-  
calaureate address for the Noble  
township high school in the New  
Salem auditorium.

**Main Street Christian Church**

Pastor, Rev. L. E. Brown.  
Sunday school, 9:30 a. m.

At 10:30 a. m. the pastor will  
speak on "The Glory of God's  
House" and at 7:30 he will give  
"The Passion Play As I Saw It" il-  
lustrated by 70 slides. Thursday  
evening "Church Night," program  
will be given by Dr. Gilbert's  
class, Austin Frazee, teacher.

The orchestra will give a musical  
program Sunday evening as a pre-  
lude to the lecture.

**St. Paul's M. E.**

Pastor, Rev. C. S. Black.  
Sunday school at 9:30 a. m.  
George N. Wiltse, supt.

Morning services, 10:30. Sermon  
topic, "God's Ideal of Character."

**Junior League at 2:30.**

Epworth League Devotional Hour  
at 6:30 p. m.

Evening worship at 7:30. Sermon  
subject "The Promises."

Special musical numbers will fea-  
ture the morning and evening  
prayer services.

Prayer meeting Thursday evening  
at 7:30.

A cordial invitation to worship at  
this church is extended to all.

Gets The Big Ones First

The government employs something like 40,000 girls as stenographers and typists. Their average pay is \$1,200-a year.

A treasury expert estimates that each one of these girls use up one hour a day in primping during working hours. It pains the expert to think that the government pays them \$6,000,000 a year in salaries for which it receives no return.

Should the girls be docked for the time they consume in primping and powdering their noses? Possibly they should. Not even the government should be expected to pay for services that are not rendered. But let's start right and dock impartially.

Is there a man in the government employ who really works his eight ours each day?

As a matter of fact, don't the majority of them loaf from one to two hours every day? Call it two ours as a fair example. Include among the number the gentlemanly pert who would dock the girls

**SAP AND SALT**  
BY Bert Moses  
*Sap-and-Salt-in-the-Worlds, Ashland, Oregon*

Where there is a brain shortage, nerve is the only hope.

More genius is required to sell a book than to write one.

Health comes as much from leaving medicine alone as from taking it.

It takes more than statesmanship to put a country on a paying basis.

A well-placed kick sometimes supplies the exact kind of-a "lift" a man needs.

Court attendance is supplied by two classes—those who go and those who are taken.

**HEZ HECK SAYS:**  
"The need of advertisin' is at the root of many a stage divorce."

for keeping themselves beautiful for our benefit.  
Now do some more brilliant figuring, Mr. Expert, and tell us the result.  
Save \$6,000,000 a year? You bet! By including the male loafers it would be nearer a hundred millions.  
Sure thing! Turn the switch and start the official docker to working. But soak the big guns and chief loafers first.

**We Will Take a Chance**  
A noted preacher says our American women are so bad they will cause the destruction of this country within fifty years.  
We thank the reverend gentleman for postponing our exit for fifty years. Our eyes are still good and we can take in a lot of sights in that length of time.  
It may be true, as he says, that the women of today are bad—at least some of them are. But realizing the enormity of our own masculine sins, we are not throwing any stones at the fair sex—not even at the flappers.  
Then again, fifty years is a long time to wait for the blowup, or kick-off, or whatever way we are to be snuffed out.  
They may be bad—we don't know—but we like 'em all, even in their badness.  
We'll continue to take 'em as they come, and crowd in as many of those fifty years as we can.  
Nine rabs for the women!  
Who cares to listen to a sky-pilot who likes to hear his head rattle, anyway.

**Other Than Material Things.**  
Our own experience has taught us that even in this world of reality there exists dreams and desires, thoughts and feelings of beauty, of justice, and love, that are of the noblest and loftiest.—Maeterlinck.

No Old Women Nowadays

Modern dress, hair dressers, facial experts and cosmetics all combine to keep women of all ages young and attractive in appearance. Not until the telltale wrinkles become so deep, the figure stoops, or some ailment or weakness develops to drag a woman down does she really look her age.

Every woman owes it to herself and her family to keep herself young in appearance, and happy. When headaches, backache or "the blues" develop or when a woman reaches the trying age from forty-five to fifty, Lydia E. Pinkham's Vegetable Compound may be depended upon to keep her in health as it has so many other women whose letters we are continually publishing in this paper.—Advertisement.

NATION ON THE WAY BACK TO NORMALCY

Senator New, Before Returning to Washington, Gives Out Statement Presenting Facts

GIVES HARDING THE CREDIT

Says Grand Marshal is at the Head of the Procession and Knows Where He is Going, Too

Indianapolis, April 21.—United States Senator Harry S. New, who left here Thursday afternoon for Washington, gave out a statement prior to his departure in which he presents facts and figures showing that the nation already is well along the road back to normalcy, despite the fact that his opponent for the republican nomination for senator, is seeking to make it appear that his presence in the United States Senate is "the one grand and all-compelling pre-requisite" to bringing about a return to prosperity.

Senator New, who has been here since Sunday, left for Washington in response to a telegram calling him back. Although extremely busy with the managers of his campaign the senator immediately made arrangements to return to Washington as soon as he received the telegram. Senator New's statement was read by him before a meeting of the county managers of his campaign.

After presenting evidence showing that the country is well along the way back to prosperity Senator New said that "possibly the men who have been shaping the affairs of government during the last year have had something to do with it.

"First and foremost among them, I name Warren G. Harding—a Republican President," the Senator said. "Next I claim a share in what has happened and what is going to happen for those who have helped him along a thorny and rocky path and stand willing to help him in the days that are to come. Oh, no, I don't propose to stand on the sidelines and watch the procession march past for I have been marching with that procession since it started a year ago and while it hasn't reached the end of its journey, it has progressed far enough for us all to know that the Grand Marshal knows where he is going."

Strikes at Root of Indigestion

Dr. Jackson's Digestive and Liver Powder Quick In Relief. Free sample sent on request.

This is proven. Usually the first dose banishes attacks of acute indigestion. One reason is it is a powder and immediately dissolved in the stomach and rendered ready for action. In ordinary cases of indigestion, such as palpitation of the heart, heartburn, sour stomach, gas bloating and similar evils, a single dose often brings relief.

A great many signed statements are on file to this effect. The promptness with which Dr. Jackson's Digestive and Liver Powder takes effect is celebrated among its users.

If not satisfied with results after using the first box, your money will be cheerfully refunded. Price 60c. Write today to Jackson Medicine Co., Zanesville, O., for free sample. Sold by most druggists.

Political Announcements

**Announcement Fees**  
A fee of \$5.00 will be charged for political announcements published in each issue of The Daily Republican until the primary election Tuesday, May 2, 1922. This fee is payable when the announcement is ordered and names will appear in the order in which they are received and paid for.

REPUBLICAN CANDIDATES

We are authorized to announce the following candidates for nomination for district, county and township offices subject to the decision of the Republican primary election to be held Tuesday, May 2, 1922.

## HIGH SCHOOL DOPE

BY MR. R.H.S.

Four more weeks of school for the Seniors. The question is, can they stand the gaff?

† † †

The baseball team played Raleigh Tuesday evening. And we failed to write up the game Wednesday. And we failed again to write it Thursday. The reason was that "Jadda" Sparks lost the score sheet. (Our alibi for laziness). But it's better late than never so here goes: The most important thing about the game was that Rushville won it—8 to 7. An error in the 1st inning paved the way for four runs for Raleigh. Three men should have been put out but one of Sutton's men let one slip. After that we held Raleigh to three runs, one in the third and two in the last. Rushville had a harder time getting under way on the run business but when they got started they rambled, scoring one in the second, one in the third, two in the fourth, and four in the sixth inning. Two errors were made by Rushville during the game, Raleigh playing an errorless game. Rushville got ten hits to Raleigh's seven. Sutton's team played a good game, and lived up to the reputation it earned in the Webb game.

† † †

Tracy Cross was the individual star. In fact Tracy saved the game. In the seventh inning a Raleigh batter popped the ball up into the blue heavens for a homer. It fell to earth, or rather started to fall, in the near vicinity of Tracy, who was holding down the post of an outfielder. Tracy caught it. If he had missed it, the score would have been tied, and one more inning to go. And you never can tell what might have happened in that extra inning.

Today the team has higher aspirations than just defeating a baseball team from little schools. At two o'clock the team left for Indianapolis where they will battle with the fast nine of Cathedral High school, Steppin' way out there, we'll say.

† † †

A sweet young thing wanted to know if the game this afternoon was going to be held at Washington Park. No, we're not in the big league yet.

† † †

School let out at two-thirty this afternoon. Nobody seriously objected to the idea.

† † †

The cast for the Senior Class play will motor to Milroy tonight where they will witness the Milroy class play, and criticize it. "Kitty, kitty, kitty!"

† † †

Senior class orders commencement announcements. Suggest the following inscription for them: "Please remit."

† † †

Yes, the Juniors and Sophomores and the Freshmen are still going to school. They aren't doing anything though. Just envying the Seniors that are going to graduate.

### This Time Last Year

Babe Ruth got his third homer, two doubles and a single in 4 times up against Moore in Philadelphia.

George Kelly hit his third homer off Hubbell, Phils, in New York.

Frank Baker was reinstated by Commissioner Landis.

The Giants lost the opening game on the Polo Grounds and Pittsburgh took the league lead.

### How They Stand

American Association			
	Won.	Lost.	Pct.
Minneapolis	6	1	.857
Kansas City	5	3	.625
Indianapolis	4	3	.571
Milwaukee	4	3	.571
Columbus	4	4	.500
Louisville	3	4	.429
St. Paul	2	5	.286
Toledo	1	6	.143

American League			
	Won.	Lost.	Pct.
Cleveland	6	1	.857
New York	5	2	.714
St. Louis	4	3	.571
Philadelphia	4	3	.571
Chicago	3	3	.500
Boston	3	4	.429
Washington	2	5	.286
Detroit	0	6	.000

National League			
	Won.	Lost.	Pct.
New York	5	1	.833
Chicago	5	2	.714
Philadelphia	3	2	.600
St. Louis	4	3	.571
Pittsburgh	4	3	.571
Brooklyn	2	4	.333
Boston	1	4	.200
Cincinnati	1	6	.143

### Thursday's Results

**American Association**  
Indianapolis, 3; Kansas City, 0.  
Minneapolis, 4; Toledo, 2.  
St. Paul, 9; Philadelphia, 5.  
Milwaukee, 11; Louisville, 5.

### American League

Cleveland, 5; Detroit, 4.  
New York, 10; Washington, 3.  
Boston, 15; Philadelphia, 4.  
Chicago, 4; St. Louis, 2.

### National League

New York, 8; Brooklyn, 1.  
Chicago, 3; Cincinnati, 1.  
Pittsburgh, 10; St. Louis, 5.  
Philadelphia-Boston (rain).

### OUTLOOK FOR TODAY

New York—Sunshine. Yankees, Hoyt; Senators, Erickson.

Brooklyn—Sunshine. Robins, Reuther; Giants, Nehf.

Detroit—Clear. Indians, Coveleskie; Tigers, Oldham or Stoner.

Chicago—Fair. Cubs, Cheever; Reds, Rixey.

Philadelphia—Fair and cold. Athletics, Naylor; Red Sox, Collins.

Pittsburgh—Snow and cold. Pirates, Glasener; Cards, Haines.

St. Louis—Clear. Browns, Danforth; White Sox, Wilkinson.

Boston—Clear. Philadelphia, Meadows; Braves, Marquard.

### American Association

Milwaukee at Louisville, cloudy, 3:15 p. m.

Kansas City at Indianapolis, rain, 3 p. m.

St. Paul at Columbus, cloudy, 2 p. m.

Minneapolis at Toledo, cloudy, 3:30 p. m.

### The Score Board

Yesterday's hero—George Burns, Red Sox first baseman, hit two homers and two singles and helped beat the Athletics, Elmer Smith and Joe Dugan also smacked one for four bases.

Elmer Miller, Yankee outfielder, hit his second homer in two days, rapped out a single, drove in two runs and scored two himself, the Yanks winning from Washington, 10 to 3.

Two runs trickled in when Ellerbe dropped a pop fly in the first inning and the White Sox beat the Browns 4 to 2.

The Giants mauled Vance and Smith for three runs each in the first two innings and beat the Robins 8 to 1.

One run in the rear in the ninth inning, the Cleveland Indians scored a pair and handed the Tigers a 5 to 4 defeat, the sixth straight loss for Ty.

Heavy hitting by Maranville, Tierney and Bigbee gave the Pirates a 10 to 5 victory over the Cards, Hornsby's homer was the only bright stuff for Rickey.

Alex the Great held the Reds to three scattered hits and although getting five hits off Donahue, the Cubs won 3 to 1.

### TO PLAY ON SUNDAYS TAIL LIGHTS ARE AWAY

**Webb All Stars Are Organized and  
Will Meet Andersonville Here  
In First Game**

### LOCAL AMATEURS ON TEAM

The Webb All Stars have organized for the season and have contracted for the West Third street ball diamonds during the Sundays that the Tail Lights are away from home, and the first game has been announced for Sunday when the Rushville team will hook up with the team from Andersonville.

The Webb team is composed of the best players living in the Webb neighborhood and from this city and they expect to play only the best teams in order to give the fans a good game when the Tail Lights are on the road.

Clarence Weidner, who is janitor at the Webb school is manager of the team, and Clyde Martin is booking agent, and any team that desires a game with them, should call Mr. Martin at 4101, one short, and one long ring.

### TAIL LIGHTS READY FOR FIRST CONTEST

**New Faces Will Appear in Rushville  
Line-up When They Invade  
Greensburg Sunday**

### THREE PITCHERS ON STAFF

The Tail Lights are all primed for their first invasion in the Indiana baseball league, when they go down to Greensburg Sunday and several new players have been added to the line-up for trials, so that a good team can be placed in the running by the time that the league officials decide to limit the players for the season.

Ray Jerome, a pitcher of wide reputation, who played some with Greenfield last year and defeated Hope, will be with the Rushville team Sunday, as will Plummer and Huddleson, two other pitchers. Jerome hails from Terre Haute, and on Tuesday pitched against Rose Poly, in which game he allowed only one hit in the five innings that he was on the mound.

The two Wagner brothers of Osgood, heavy hitters and good fielders, will be given a tryout Sunday, as each of them is anxious to get on the local team. One is an outfielder and the other is a catcher and outfielder. Chase McCarty of this city also will be along and will be on hand for the first sack position.

### Sport Summary

Watersbury, Conn.—After an investigation Frank Garvan, graduate manager of athletics at Fordham, announced that the Fordham varsity played against the Watersbury eastern league club last Sunday.

Princeton, N. J.—Walter McPhee, Brooklyn, was elected captain of the Princeton baseball team to succeed Tom McNamara, one of the Athletics declared ineligible in the recent house cleaning.

New York—Floyd Fitzsimmons who says he has Jack Dempsey signed to fight in Michigan City on Labor Day, told friends here that Bill Brennan, Chicago heavyweight who has met the champion twice, probably will be his opponent.

Urbana, Ills.—J. Craig Ruby basketball coach of the University of Missouri, has accepted terms to coach the University of Illinois five next season.

Chicago—Johnny Overlock, a pitcher for the St. Louis Browns, arrived in Chicago today to join the Marquette owners of the Mid-

west league. Overlock deserted the Browns at Cleveland.

New Haven, Conn.—Langhorn Gibson, captain of the Yale varsity crew, son of Charles Dana Gibson,

the artist, and the nephew of Lady Astor, gave up his position in the shell in favor of a lighter man for all the short races. He will row only in the four mile event against Harvard.

Richmond, Indiana, April 21, 1922.

### To the Voters of the Sixth District:-

On January 2, 1922, through the press I announced that I was a candidate for the nomination on the Republican ticket as Representative from the Sixth Indiana District in the National Congress at the Primary May 2, 1922. I entered this race at the urgent request of the Republicans of my home county (Wayne), who were joined by like persons of other counties who believed that at this time there should be a contest and the voters given a chance to express themselves as to their preference at the Primary. We are now nearing the end of the campaign and I wish to restate my position that voters may think it over carefully, and judge of my fitness to serve them. If successful in the nomination and the election, I shall do my very best to follow the path of duty and justice. The people of our district have varied interests. Today many of these are sorely tried, tomorrow it may pass on to another class. It shall ever be my endeavor to represent all of these varied interests and at times when such interests are calling for representation. It may be popular for a congressman to aspire to represent a class in his district, but it is far wiser and better for him to endeavor to represent his district.

The broader view when taken by a legislator to represent his district will be a positive guarantee that he will not misrepresent any particular group. This is not to be interpreted that I will merely support majority measures which would pass without my aid, but that I shall ever be watchful of the interests of my home folks and make their welfare the majority issue when such representation is needed.

It is of prime importance to reduce public expenditures and lower the taxes created by the national government. The many Boards, Bureaus and Commissions which unnecessarily add to the governmental expenses and under the present economic condition make it necessary to return to the Constitution and to simple Representative government.

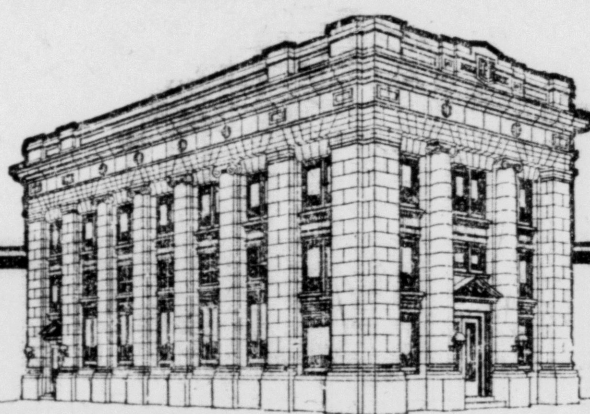

We should produce an economic revival not by temporary specifics of class legislation but by going to the fundamentals of production and of distribution and obtain markets for our products. Every workman should have a job at which he can earn a living and take care of his dependents and have some leisure to enjoy the pleasures of life, and every farmer and manufacturer should have a profitable market for his products. The American mind of Independence and enterprise should be stimulated.

Our nation is justly proud of the achievements of our soldiers in the "world war" and we should make just provision for their welfare! America must take her part in world affairs in such a way as to guard her rights and the liberties of every citizen.

I shall appreciate your support in the coming Primary and Election.

Respectfully,

**Charles O. Williams**

# SOCIETY

Edited By Miss Edna Krammes  
Phone 1111

Miss Alice Norris has returned from Indianapolis where she has been visiting friends. On Wednesday she attended a Japanese luncheon given at the Woman's Department club as the guest of Mrs. L. O. Hamilton of Indianapolis.

The Women's Foreign Missionary societies of the Connersville Methodist district held a convention Wednesday at the Columbia Methodist church in Connersville. On account of the inconvenience of reaching the church, which is situated in the suburbs of Connersville, no delegate from the local society was appointed. Mrs. Hattie Asbury of Indianapolis, conference secretary, and Mrs. Samuel Ward of College Corner, district president, were guests of honor at the meeting and took part on the program.

Mr. and Mrs. E. R. Smith announce the marriage of their daughter, Miss Inez R. Smith of Newcastle, to W. S. Arbuckle of Indianapolis, son of Mr. and Mrs. E.

O. Arbuckle of this city, on Sunday, April 16, in Indianapolis. They will be at home after May 1 at 2150 Ashland Avenue, Indianapolis. The bridegroom, who is better known here as Cyril Arbuckle, was graduated from the Rushville high school with the class of 1919 and later entered the service. He is now employed by the Hydraulic Press Brick company of Indianapolis.

Miss Gertrude Ertel was delightfully surprised by a number of her friends Monday evening at her home north of the city. The surprise was planned and carried out by her sister Miss Ruth. Those present were the Misses Frona Clifton, Bessie Freer, May Taylor, Lucille Bowen, Estella Carson, Vesta Maddy, Frances Clemmens, Ruby Maple, Ophelia Heath, Bernice Green, June Lightfoot, Merle Gordon and Fred Newkirk, Harold Sharp, John Arnold, Seiss Wagner, Arthur Clifton, William Ertel, Floyd Kirkham, Myron Hood, Scott Poer, William Newkirk, Flavius Hyatt, Thelmer White and Carl Ertel. The house was decorated in blossoms and wild flowers. The evening was enjoyed with playing games and dancing. Refreshments were served by Mrs. Win Ertel and Mrs. Ben Ertel.

Mrs. Charles Hugo was hostess Thursday afternoon to thirty members and guests at the April meeting of the Rushville chapter of the D. A. R. After a short business session the president general's message was read by Mrs. Willard Amos. A vocal duet was rendered by Mrs. Georgia Moore and Miss Wanda Wyatt. An interesting paper also was given by Mrs. Mae Logan on "American Indians." Refreshments were served during the social hour, the assistants being Miss Emma Blackledge, Mrs. Jessie C. Green, Mrs. Jessie Gary and Mrs. Josephine Brown. Mrs. Rachel Joens of Chicago, a member, was present for the meeting.

Miss Sylvia Mullins was a gracious hostess Thursday evening when she entertained a number of her friends with an announcement dinner party, announcing her engagement to Richard Byrne of this city. Pink and lavender was the predominating color scheme used in the table decorations. A large bouquet of pink and lavender sweet peas adorned the center of the table and

pretty pink heart baskets containing pretty favors of bride's slippers, wedding bells and hearts were attached to the centerpiece with ribbon streamers. Individual candlesticks with pink candles added to the beauty of the decorations. The engagement was cleverly announced through the place cards which were messenger boys carrying a telegram which contained the announcement. Covers were laid for eighteen guests. The wedding will take place late this spring.

Mrs. Hugh Manzy of this city attended a musical tea given by the Mu Phi Epsilon sorority at the Lincoln Hotel in Indianapolis Thursday afternoon. A violinist and pianist gave the program during the

afternoon. Miss Jessie Kitchen of Columbus, Ind., formerly of this city, was also among the guests.

The P. A. L. club of Falmouth held an enjoyable meeting Thursday afternoon at the home of Mrs. Fred Martin in Falmouth. The responses to the roll call were "Housecleaning Hints." Following the roll call a business meeting was held, during which unfinished business which was left over from the last meeting, was completed. A dainty luncheon was served by the hostess to ten members and two guests, Mrs. Orville Martin and Mrs. Thomas Martin. The next meeting will be held at the home of Mrs. Howard Kehl, May 4.

### Separated In Heaven

Chicago, Apr. 21—Death has separated Josefa Blazek from her Siamese twin sister, Rosa, George C. Warne, president of the National Spiritualists association said today. According to Warne, who is presiding over a state convention of Spiritualists, the spirit of Rosa attended the convention when she was summoned to "testify" about life in the other world.

"Although Rosa was in the seance room only a few minutes," said Warne, "we know the contact had been established and that she was alone."

The Blazek sisters died here recently. "Funny how things work out sometimes," said the married marine to a bunch of his buddies. "Two years ago I was going around with Ethel and Anna, and I couldn't for the life of me tell which of the two I wanted to marry. One night I dropped into the post exchange to buy a cigar. Right on the cigar band, as large as life, it said, 'Hav-anna!'" —Leatherneck.

### OF PERCALE AND DIMITY

Polka dotted percale and white checked dimity make this pretty dress for little missy. It is in two pieces. The blouse of the dimity has a Peter Pan collar and turn-back cuffs adorned with feather stitching of silk floss. A white silk cord ending in small tassels is laced across the front of the bodice and a patch pocket at one side maintains that practical things can be pretty.

### DYE FADED WRAP SKIRT, DRESS IN "DIAMOND DYES"

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her old worn, faded things new. Even if she has never dyed before, she can put a rich, fadeless color into shabby skirts, dresses, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything. Buy Diamond Dyes—no other kind—then perfect home dyeing is guaranteed. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

## MORE EFFICIENT SCHOOLS, - BURRIS

State School Head Lays Plans to  
Correct Defects Which He  
Found on Recent Visits

TO SEEK NEW STATUTES

Teachers Should Receive More  
Training, He Says, and Prepares  
Questions For Them to Study

Indianapolis, Ind., April 21.—Plans for greater efficiency in the operation of Indiana schools were announced today by Ben Burris, superintendent of the state department of public instruction.

He proposed revision of Indiana statutes to compel teachers to receive more training.

"All items of school expense are created—school houses are built, equipment purchased and teachers employed that the recitation may function properly," Burris said, urging all teachers to make an inspection of their methods of teaching.

His ideas are based on observations he made while on a series of visits to schools and meeting with county superintendents in various counties during January and February. He said, he found that much of

the teaching was good but some of it was very poor.

"In many cases it was evident that the teacher had a fundamental grasp of the subject matter upon which she was teaching and had made the lesson assignment carefully. In these cases, the recitations were so conducted as to achieve good results," Burris asserted.

"Other cases were observed, however, in which it was quite evident the teacher had not carefully prepared the lesson and had been indifferent in making the lesson assignment."

He also found many other faults. Here are some of the questions Burris wants the teachers to ask themselves:

Do I anticipate my recitation and plan accordingly?

Do I permit the bright pupils to do all the reciting?

Do I make questions simple, direct and clear?

Do my questions stimulate thought?

Do I make applications of my points to present everyday problems?

Do I have a good reason for the questions I ask?

Do I hold the pupil responsible for answering the question asked and make failure to answer serious?

# COAL PRICES GO UP ON SOME MARKETS

Western Wholesale Markets Report  
Increase as Result of Nation-  
Wide Miners Strike

## RESERVE PILES DIMINISH

Despite Freight Rates the Big Con-  
sumers Are Crowding Market  
For Non-Union Coal

By FRED G. JOHNSTON  
(U. P. Staff Correspondent)

Indianapolis, April 21.—Coal prices are going up on the western wholesale market as a result of the nation-wide miners strike, according to reports reaching United Mine Workers headquarters here today.

The wholesale reserve supply stored by Illinois and Indiana mine owners is being depleted rapidly and they are holding what they still have on hand to maintain their idle properties—or selling it at increased rates.

Southern Illinois mine run coal is bringing \$3.00 to \$3.50 a ton. Before the strike it sold at wholesale for \$2.25 to \$2.50. Similar increases were reported in mine run from Central Illinois and Indiana fourth and fifth vein.

Products of the non-union fields of West Virginia command the same prices they did three weeks ago before the strike started. But there is little demand in the west and middle-west for eastern coal because of high freight rates. The rate from West Virginia to Chicago is \$3.58 a ton.

Despite prevailing freight rates, big consumers are crowding the market with inquiries for non-union coal, but sales are not heavy in view of the ultimate cost.

All mines in the middle west are closed by the strike, union officers declared except a small field in Western Kentucky where the union still has a wage contract with the operators. Some operators are expected to sound an ultimatum soon advising the strikers if they are not back at work by a fixed date, other men will be employed in their places.

This will not cause any of the mine workers to leave the ranks, union officers claimed.

As a move to force down the retail price of coal in Indiana, R. B. Coapstick, traffic manager for the state Chamber of Commerce, has filed two complaints with the Interstate Commerce Commission in Washington asking for a readjustment of freight rates into Indiana from Ohio, West Virginia, Pennsylvania and Kentucky coal fields.

Coapstick characterized existing rates as "unreasonable, unjust, unduly prejudicial and unjustly discriminatory." He asked that rates to Hartford City, Terre Haute, South Bend, Ft. Wayne, Muncie, Anderson and other Indiana towns be reduced to the level of the rate to Indianapolis which is \$2.80 a ton.

# Have Dark Hair And Look Young

Nobody Can Tell When You  
Darken Gray, Faded Hair  
With Sage Tea

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied, with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through the hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color, and looks glossy, soft and beautiful.

## Tomorrow

you will pass this store.

TOMORROW, possibly, or surely the next day, you will pass this store. Here's a suggestion for tonight. Take a note book and a pencil—start in the attic, go right down through the house to the cellar and jot down the things that can be given a new lease of life with a little paint or varnish. You'll be surprised to see how many there are.

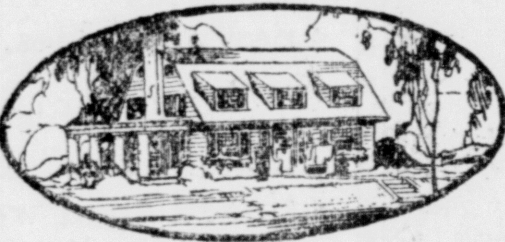

And here's another suggestion. When you buy the paint—keep two things in mind. First, you want good paint and, second, you want the paint made for exactly your purpose. There is where we can help. First: There is no better paint or varnish than Du Pont—made by America's Great Chemical Industry. Second: Our Du Pont line is complete. Here we can give you the paint or varnish that fills your exact requirements. Bring in your painting list. We will give you cost and time estimates. We do more than sell paint—we give real paint service.

The place in town to buy paint:

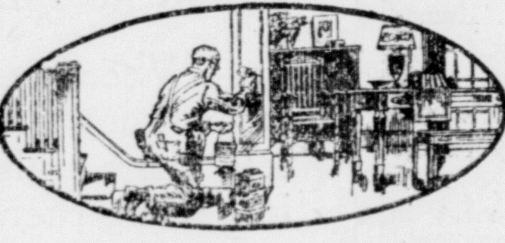

**E. E. POLK**

110 North Main St.

Rushville, Ind.

Paint must protect as well as beautify—  
one reason why Du Pont Prepared  
Paint is the best for exterior use.

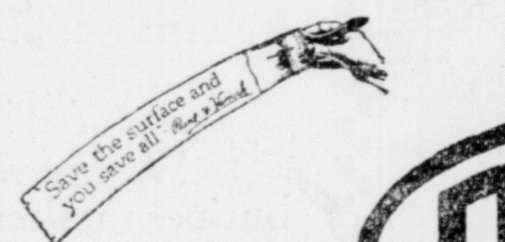

For finishing interior woodwork use Du  
Pont Shipoleum Varnish or Du Pont  
Enamel.

A can of Tufcote, the quick-drying  
Du Pont Varnish Stain, is a surety  
against marred and scarred furniture.

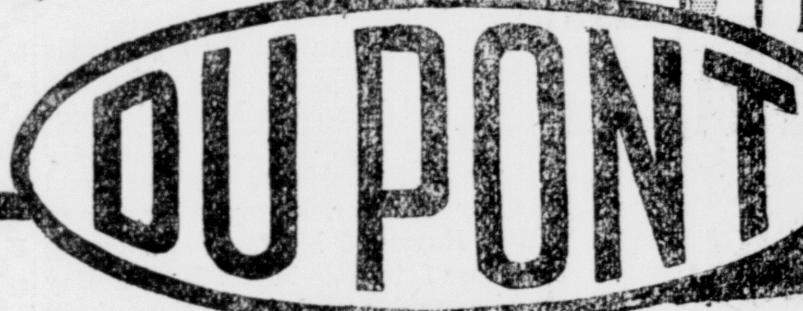

Du Pont Auto Finish in a few hours'  
time will make the old car look like  
new.

Save the surface and  
you save all that's behind it.

There is a Du Pont  
paint or varnish  
product made for  
every purpose by  
America's Great  
Chemical Industry.

## BUGGY HORSES ARE FAST DISAPPEARING

Ratio is About One to 100 Farms in  
State With Big Decrease Since  
1912

### RATIO VARIES IN THE STATE

(By United Press)

Indianapolis, Ind., April 21.—It is hard to find one buggy horse on a hundred farms in some parts of Indiana, George Bryant, Indiana representative of the U. S. department of agriculture said today.

Of course the ratio of horses is greater in some parts of the state where farmers are not prosperous enough to buy automobiles and tractors and where the roads are bad, but in the north it is generally true.

Since 1912 there has been almost a 12 percent decrease in the horse population of Indiana, Bryant said.

In the last few years farmers have been taking advantage of the fact that mules are easier to raise and when it comes to strength and endurance mules come far ahead of their half brothers.

### ANTI-SALOON BODY ACTIVE

Midwestern Convention to be Held  
in Milwaukee May 25 and 26

(By United Press)

Milwaukee, Wis., April 21.—Active participation by National and State anti saloon leagues in the coming primary elections was announced today in the calling of a mid-western convention of the league workers of thirteen middle western

states to be held in Milwaukee May 25 and 26.

States to be represented are Minnesota, Wisconsin, Iowa, Illinois, Michigan, Indiana, Ohio, Kentucky, Missouri, Kansas, Nebraska, North and South Dakota.

The Milwaukee meeting is one of eight to be held over the nation between now and primary time.

# Our Pledge To the Farmer

We will carry at all times a complete stock of repair parts for all machines we sell.

We will carry only **genuine** IHC repairs for McCormick-Deering Machines, as these are the only ones made from the original patterns. They are exact duplicates of the same parts made for new machines.

We refuse to sell "Will-Fit" or "Made-For" imitation parts made by concerns that do not have the same interest in the **continued good work of your machines** that the manufacturers of the machines have.

If we do not have in stock the repair parts for any machine we sell, **we guarantee to get them at once** from the nearest branch house.

When we order emergency repairs — rush orders — from the branch house, **we promise not to charge you extra** for any telegrams, telephone tolls, express or parcel post charges that we may incur in getting them, **for it is our business to keep in stock what you need.**

We will **not** under any circumstances, **charge you one cent more than regular price** for any repair parts you buy from us. This applies to repairs for all McCormick-Deering machines, whether you bought the machines from us or elsewhere.

You may expect a visit from us in our new red Sales and Service Truck

We know that we are not entitled to one dollar's worth of your business **unless we can deliver one hundred cents' worth of value, quality and service for every dollar you spend with us.** Thanks to a quality line, and to our good old Golden Rule business policy, we are able to turn your money into real farm equipment value when you buy here.

The McCormick-Deering Line provides the best-known and most complete line of tractor-operated equipment on the market. The tractors and machines are designed to work together as field units.

## McCORMICK-DEERING FARM MACHINES

**Power Machines**  
Tractors, Engines and Motor Trucks

**Grain Harvesting**

## BEEF CATTLE CLUBS ARE PROVING POPULAR

Many Counties Have Boys and Girls Clubs in Which Entrants Will be Made at State Fair

IS LIKE PIG CLUB WORK

(By United Press)  
Lafayette, Ind., April 21.—Boys and girls beef cattle clubs are proving unusually popular this year in Indiana club work and many calves have been or will be given out during the next few weeks in a number of counties, all of which will send some entrants to the baby beef contest at the state fair in September.

Some of the counties in which clubs have been formed are Tippecanoe, Delaware, Gibson, Hancock, Parke, Jay, Morgan, Montgomery, Bartholomew, Blackford and Huntington.

Local fair associations, county beef cattle breed associations, banks and others vitally interested in the agricultural development are financing the clubs, thus enabling the boys and girls to buy the calves. County agricultural agents or vocational teachers in most cases are supervising the club work except in Delaware county where Charles Koontz vice-president of one of the local banks, is doing the work himself as part of the agricultural extension work of the bank. In other counties breeders are doing the work themselves or giving valuable assistance in helping the young stockmen along.

## County News

## ATTENDS I. U. CONFERENCE

Supt. J. H. Scholl to Preside at Afternoon Session Saturday

J. H. Scholl, superintendent of the Rushville public schools, went to Bloomington today to attend the ninth annual state conference on "Educational Measurements," which is being held today and tomorrow under the auspices of the school of education of Indiana university. Supt. Scholl will preside at the closing session Saturday afternoon. W. E. Wagoner, superintendent of the Rush county schools, was to speak at that time on "The Practicability of Intelligence Tests," but found it impossible to attend the conference on account of his duties in connection with the closing of many of the county schools.

**Medical Note.**  
A good cure for tonsillitis is a sleeve wrapped around your neck with a young lady's arm in it.

Miss Gleda Houghton, teacher of expression, of Connersville, Indiana, will present her pupil, Miss Edna Creamer, in a public recital at the Christian church in Glenwood Wednesday evening, April 26. Her program will consist of costume readings, monologues, juvenile impersonations and pianologues. The recital will be given under the auspices of the Women's Missionary Society of the Glenwood Christian church. 34tf

It helps you digest your food; builds up your strength and reserve power. Ask your neighbor. For sale at all good druggists.

## GOVERNOR OF PORTO RICO TO BE REMOVED

Harding Convinced That Riley is Not The Man to Govern the Island, It Was Reported

NOT TO GET HIGH GOV'T POST

Washington, April 21.—E. Mont Riley, of Kansas City, will be removed as governor of Porto Rico in the near future, it was learned today from a source close to President Harding. The president it was said today by one of his confidants on Porto Rican matters is "convinced" that Riley is not the man to govern the island and has decided it would be unwise to leave him there much longer.

It was also said that the president had abandoned any thought he may have had of transferring Riley to a high government post in Washington, such as membership on the war finance board.

A place on this board would have been given Riley, it was said, had he been able since his return to the island after a visit to Washington recently, to settle his differences.

Instead officials here believe matters have become worse. Harding is said to feel that the governor is not guilty of any wrong doing, as has been charged by Porto Rican representatives.

**Molasses on the Water.**  
During a hurricane in the West Indies the tank steamship Philip Publicker, carrying molasses in bulk, pumped overboard 280,000 gallons of the liquid to smooth off the seas and break their force. The action of the molasses on the water seemed to have the same effect as oil.—Ship News.

## Goitre Removed Easily

**Springfield Lady Tells How**  
Mrs. Frank Beard, 1610 Karr St., Springfield, Ohio, says she will tell or write anyone how she removed a goitre five years ago with Sorbol Quadruple, a colorless liniment.

You can see the treatment and get addresses of many others who have been successful at Johnson's Drug Store, or write Box 358, Mechanicsburg, Ohio.—Advertisement.

## RADIO

### PROGRESS OF RADIO THROUGH THE YEARS

Wireless Research Began Long  
Ago, But Development Has  
Been Swift Lately.

Wireless research started many years ago, as far back even as 1827. Even the radio telephone is not a recent perfection; rather it is that introduction to the layman of the human voice and music has suddenly popularized something that wireless men had thought a pastime or amusement. Here is the chronological record of wireless:

1827—It was found that the magnetic discharge from a leyden jar would magnetize a steel needle.

1831—Electro-magnetic induction was discovered between two entirely separate circuits by Michael Faraday.

1837—Cooke and Wheatstone of London, England, and Morse of the United States take out first patent for electric telegraph.

1838—K. A. Steinheil of Munich suggested that a system of wireless telegraphy could be established after his discovery of the use of the earth return.

1840—Joseph Henry (U. S. A.) produced the first high-frequency electric oscillations, and stated that the condenser discharge is oscillatory.

1842—Wireless experiments were made by S. F. B. Morse by electric conduction through water across Washington canal and across wide rivers.

1843—A wireless system for transatlantic communication was suggested. 1845—Water was used as a conducting medium in wireless experiments across a wide river.

1849—Intelligible signals were actually sent across a river 4,500 feet wide in India, but the cost was found prohibitive for commercial use.

1867—The electric waves that are now utilized in wireless telegraphy and telephony were predicted in an

distance of 60 miles by radio signals. 1901—Radio communication started with five islands in the Hawaiian group. The first British ship is fitted with the wireless telegraph.

1902—Radiograph signals received aboard vessels at sea at 1,500 statute miles. Signals received from a distance of 2,000 miles.

1903—King Edward receives a radio message from President Roosevelt. High-power stations were ordered by the Italian government. First transatlantic radio message sent. Telegraphic news service for ships at sea is started. Marconi knighted in Russia.

1904—The first press message was sent across the sea.

1905—Patent suit started in New York between the Marconi and De Forest company.

Patent for horizontal directional aerial is taken out. This was a great step forward in long-distance work.

1906—International conference is held in Berlin, at which most of the countries of the world are represented.

1907—The use of steel disks for producing notes were successfully tested.

Radio stations in Ireland and Nova Scotia were opened for limited public service.

1908—Radio stations opened for unlimited public service between Great Britain and Canada.

1909—Steamship in collision with another off the coast of Florida succeeds in calling assistance by radio.

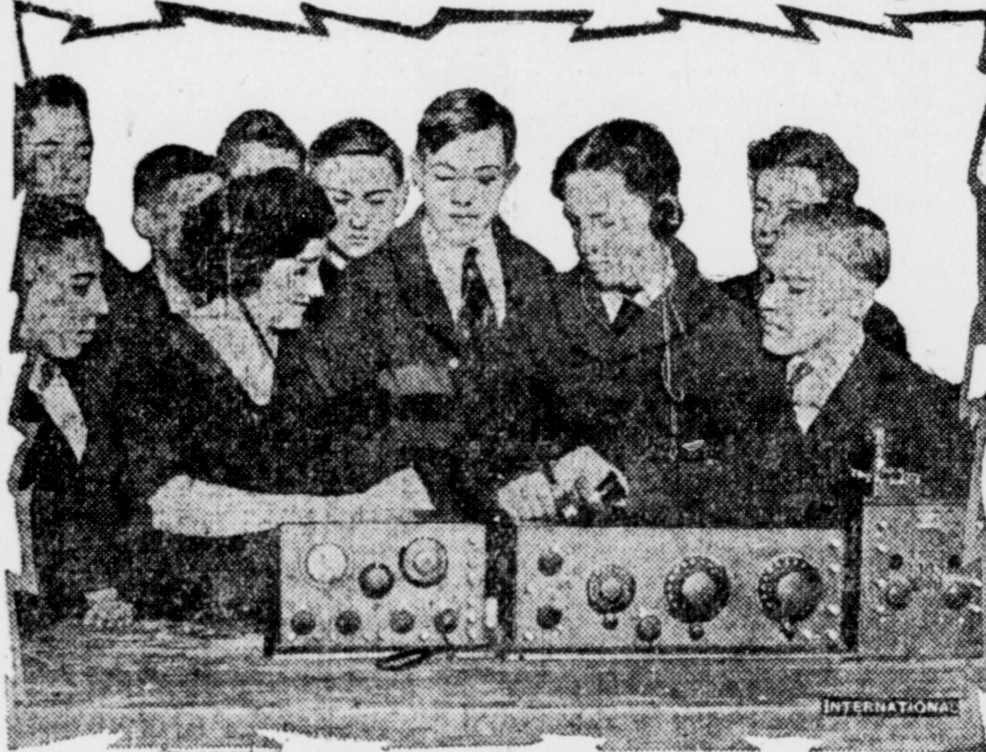

1910—Marconi receives messages 6,700 miles while on board ship going to South America.

Spanish radio company formed. 1911—Canadian government leased radio stations for 20 years.

1912—Radio distress signals from the Titanic bring assistance and save lives of 700 passengers.

1913—Tests were made between the Eiffel tower in France and the station at Washington. During the trip into Central Asia an explorer received his longitude and time signals from a distant radio station.

1914—Marconi and radio officials start test of wireless telephone between vessels of the Italian fleet. The test was continued between vessels on the high seas and voices were heard with clarity at a distance of 44 miles. One day radio telephone communication was kept up constantly for 12 hours. Great Britain declared war

Elizabeth A. Bergner, Radio Instructor in Lane Technical High School, Chicago, and Her Class.

address before the Royal Society in London, England.

1850—The sending of an electric current through earth was systematically studied by John Trowbridge of Harvard. It was found that signaling might be carried on over large distances between places not connected by wires.

1855—It was found that telephonic speech could be conveyed by induction over a space of quarter mile. This experiment took place in England.

1859—Electric waves were suggested as being particularly suitable for the sending of signals through fogs.

1892—An instrument for the detection of electro-magnetic waves was discovered which was given the name of a "coherer."

1894—A scientist of Berlin signaled through three miles of water.

1895—High frequency waves excite curiosity of Senator Marconi.

1896—First patent for practical wireless transmitting system is taken out in London by Marconi. Afterward, successful signaling was carried out over distances as great as one and one-quarter miles. Sir William Preece of the British postoffice system interested his cohorts in Marconi's wireless experiments.

1897—Marconi establishes communication between points four miles distant. Balloons were used to suspend antennae.

Marconi demonstrates his wireless system before the king of Italy, communicating with two Italian warships nine miles distant.

The first Marconi station is erected on the Isle of Wight and experiments conducted over a distance of 14 miles.

Near the end of the year the first floating wireless station was successfully operated.

1898—The first paid marconigram was sent from the Isle of Wight station.

1899—Reports made on lighthouse accident by radio. First French gunboat is fitted with radio apparatus. In Vienna communication between two balloons is established. New York Herald receives radio report of international yacht races. The British war office introduces Marconi apparatus into the South African battlefields.

1900—German vessel communicates a

upon Germany August 4 and all private radio telegraphy and telephony suspended.

1915—Radio communication between America and Japan is completed. The stations were located at San Francisco and Tokyo with a relay station at Honolulu.

The American Telephone and Telegraph company succeeded in radio telephoning from Arlington station at Washington to Hawaii, a distance of nearly 5,000 miles.

Secretary Daniels of the United States navy transmitted telephonic messages from Washington to the Brooklyn navy yards.

1916—President Wilson and the miko of Japan exchange messages over the new transpacific radio service, which is formally opened.

1917—Senator Marconi visits the United States and aids greatly in recruiting for radio operators for the United States army.

1918—Wireless telephony progressed rapidly, being used to a great extent in the equipment of airplanes.

Several new long range stations were erected in the United States, it being claimed for one built at Annapolis, Md., that it was capable of communication at 4,000 miles. The United States government also opened a high-power station at Bordeaux.

In September of this year radio signals sent from a point 12,000 miles away were received in Sydney, Australia.

1919—With the exception of the three transatlantic flights—that of the U. S. NC-4, and the British flights of Alcock and Brown and the dirigible R-34, in which radio communication played an important part in keeping the ships of the air on their courses—no very great progress was made in radio telegraphy, although radio telephony was being pushed along quietly.

Restrictions upon amateur receiving and sending were lifted by the American government.

1920—This was the year of the radio telephone, more attention probably being paid to this branch of radio than to its older brother, telegraphy. Several broadcasting stations were opened.

1921—This year was another radio telephonic year. It was marked by the opening of numerous broadcasting stations.

**You want more  
BATTERY and  
less SERVICE**

Battery service is a bug-bear. What is useful to you is continuous, uninterrupted performance. You want to have a battery installed in your car and drive away, happy in the knowledge that it will be a ready reservoir of energy whenever you need it.

The Ray Battery gives guaranteed performance because of its famous Lavier Formula plates—the greatest advance in battery construction since the discovery of the wet cell. They are hard, to withstand the strain of service—highly porous to react quickly and surely to the electrolyte.

Install a Ray and forget the service man.

## SOVIETS AGREE TO RECOGNIZE DEBTS

Russian Delegation Demands in Return, However, Recognition of Their Government and a Loan

### REPLY TO ALLIED EXPERTS

Agreement Sets Forth Willingness to Admit Pre-War and War Debts of Czarist and Regimes

(By United Press)  
Genoa, April 21.—Russia agreed to recognize both pre-war and war debts, including those of the Czarist and Kerensky regimes and to discuss proper rights of foreigners within her borders, in her reply to the allied experts' proposals, delivered by the soviet delegation here.

In exchange for this she demands de jure recognition and a loan. This is the official reply of the soviet delegation presented to the allies late this afternoon.

The political commission of the Genoa conference to which the reply was presented, accepted it as "very hopeful basis for resumption of discussion."

A committee of experts has been appointed to consider the Russian note.

The main conditions upon which Russia will comply with the terms laid down by allied experts are three:

1—De jure recognition of the soviet government by the allies.

2—Immediate financial assistance from the allies in the shape of a large loan.

3—Agreement as to "writing down" the war debt with certain counter claims and postponing payments.

The reply stated very definitely Russia would recognize the Czarist and Kerensky debts only upon the condition the soviet government was afforded the official recognition granted its predecessors.

## TO BUILD \$15,000,000 PLANT AT GARY, IND.

E. H. Gary, Chairman of United States Steel Corporation, Makes Announcement in New York

### TO ISSUE \$10,000,000 IN BONDS

(By United Press)

New York, April 21.—E. H. Gary, chairman of the United States Steel corporation, announced a plan today to build a fifteen million dollar plant at Gary, Indiana, for manufacturing of Lapp and Butt well tubes.

The plant will be built by the National Tube company and will be financed partly by an issue of ten million dollars in bonds and partly from the cash surplus.

The capacity of the plant will be 350 tons a year, it was said. This will add between 20 and 25 percent to the steel corporation tube capacity.

Work will be started immediately. Production, it is expected, will get under way in eighteen months.

Seven million dollars of Indiana Steel, 5 percent bonds, and a three million dollar National Tube, 5 percent bond, have been sold to a syndicate headed by J. P. Morgan and Company, to finance construction.

### ONE OF CREW LOST

Richmond, Va., April 21.—The steamer Brewster went down with the loss of one of her crew following a collision with the Lake Sterling early today in the James river near Oldfields, 50 miles below Richmond. The Brewster was owned by the Buxton line and the Lake Sterling by the Richmond-New York line.

## BOARD CHARGES SHORTAGE

Affairs of Ex-Treasurer of Montgomery County to be Probed.

Indianapolis, Ind., April 21.—A shortage of \$10,387.11 was charged in the accounts for 1921 of Harry Stout, ex-treasurer of Montgomery county, by the state board of accounts today.

A small shortage was charged for 1920.

Stout, however, made good the shortages before he left office, the report of the board said. His case is now in the hands of the county prosecutor, for grand jury investigation, the board said.

## CONGRESS TO AID FLOOD SUFFERERS

Appropriates Million Dollars to Strengthen Mississippi River Levees Immediately

### ANOTHER LEEVE GIVES WAY

Russellville, Ill., Homes Are Washed Away When Wall of Water Rushes Down on Small Town

(By United Press)

Washington, April 21.—Congress today came to the aid of flood-stricken lowlands along the Mississippi river. Within an hour after reconvening, both houses passed an appropriation making one million dollars available to strengthen the river levees. President Harding's signature is expected late today or tomorrow.

Vincennes, Ind., April 21.—Another levee holding back the flooded Wabash river gave way at Russellville, Ill., today and sent a wall of water rushing over the little town of two hundred inhabitants.

Homes were inundated and many of them were carried away in the turbulent current formed by the joining of the Wabash and Ambraw rivers.

Most of the residents have been living in boats during the last few days or with boats chained to their front doorstep. They paddled out into the stream and five miles down stream to Vincennes where they joined 1,000 local people made homeless in the flooding of thirty-five city blocks here.

Situated near the junction of the Wabash and Ambraw rivers, both of which have been on flood rampage for several days, Russellville was in a perilous position. One levee broke there yesterday and a levee holding back the Ambraw gave way a short time later.

The Ambraw rushed across miles of the Allison prairie and stretches of it joined the onrush of the Wabash, making a veritable lake miles wide.

Flood conditions in the Indiana "pocket" region and in Illinois across the river are the worst in years. In some places more damage has been done than in 1913.

A thousand people are in temporary quarters at the fair grounds north of Vincennes. The river is flowing through their homes on streets where the overflow reaches a depth of six to eight feet.

The Salvation Army, the Associated Charities and other organizations of similar character are on the job administering relief. They make trips in boats to homes which some families refused to leave as the water continued to rise.

## Two Centenarians

Washington, Ind., April 21.—Two centenarians are boasted by this town of 9,000 people.

Andy Rafferty is 102 years old.

Sarah Canan is 104.

Both are feeble. Rafferty worked at the Baltimore and Ohio railroad shops up until ten years ago when at the age of 92 he was retired with a pension.

He has no recipe for longevity. He smokes three or four times daily and chews tobacco moderately.

Back in 1916 B. P. (before prohibition) Andy used to like wine and song. Now he enjoys an occasional song.

## SUIT AGAINST A TRUSTEE IS HEARD

Charles V. Carr Demands \$100 Damages From Lew Lewis, Walker Township Official

### FOR SHEEP KILLED BY DOGS

Settlement Never Arranged Because Trustee Would Only Pay \$70 For Lost Animals

The case of Charles V. Carr against Lew Lewis, trustee of Walker township, was being tried today in the circuit court before a jury, and it was expected that the evidence would be in and given over to the jury late today.

The plaintiff is demanding \$100 judgment for sheep killed by dogs in the township, and the trustee is said to have wanted to pay only \$70 for the damage.

The plaintiff was the first witness for his case, and he stated that two dogs attacked his sheep on a Sunday morning about a year ago, and that four head were killed and several died of fright, and that the two dogs returned again that night, at which time more sheep were killed.

Lew Lewis, trustee, was called Sunday morning and with two appraisers the loss was fixed, but the trustee deemed the value too high, and refused to make the payment, which accounted for the action being brought into court, in which the plaintiff seeks \$100 damages.

A jury was quickly secured this morning and the following men are hearing the case: James Rhodes, George Billings, Charles Lamberson, Michael Lovett, William Rawlings, Fred Pike, W. H. Hinshaw, John Jordan, Hays Beaver, James Williams, Jess Murphy and William Grocox.

A suit was filed today in the circuit court by Bertha M. Capp against Sidney L. Hunt, sheriff of Rush county, in which the plaintiff is seeking to replevin a Hupmobile roadster, which the sheriff is said to have taken on a court judgment, and which the plaintiff alleges belongs to her, and not her husband, who was a defendant in a court action.

## TWELVE SENIORS TO BE AWARDED DIPLOMAS

Annual Commencement Exercises of Manilla High School Set For Next Thursday Night

### SACCALAUREATE NEXT SUNDAY

Twelve seniors will receive diplomas when the commencement exercises of the Manilla high school are held at the Manilla school auditorium next Thursday evening. The class address will be delivered by Albert Stump of Indianapolis and a musical program will be provided by Hill's orchestra of Shelbyville.

The baccalaureate sermon will be delivered next Sunday evening by William A. Young of this city, who is pastor of the Manilla Christian church, at the school auditorium.

The seniors this year are as follows: Herbert Stanley Carmony, Margaret Lenora Edwards, Ernest Archie Copple, Alma Fay John, Thomas Jefferson Brown, Allie A. Gordon, Forrest Clifford Lowden, Helen Nada Phares, Clyde A. Baker, Hazel Irene Gahmer, William Donald Solomon and Carrie Leona Wall.

The class motto is, "Build for character, not for fame." The class flower is the pink rose and the class colors are rose and gold.

### KILLS WIFE AND SELF

Terre Haute, April 21.—Joseph Fernetti, who disappeared some time ago, with money of a dry cleaning establishment in which he was interested, returned to Terre Haute Thursday night, shot his wife and killed himself. He is the son of a Jacksonville, Florida, man.

## CAST FOR SENIOR PLAY ANNOUNCED

"The Far-Away Princess" to be Given at Graham Annex Auditorium Next Week

### LAI'D IN LAND OF ARCADIA

Romantic Comedy With Music Said to be Different Than Usual High School Play

The Senior class of 1922 of Rushville high school will present "The Far-Away Princess" at the Graham Annex Auditorium next Thursday and Friday nights. The reserved seat sale opens at Pitman and Wilson's drug store Saturday at 1 p. m.

The play, which is produced and directed by Denning Havens, is a romantic comedy with music. The play is of a different sort from the kind usually given by high schools. Judging from rehearsals, outsiders who have witnessed the play and who are authorities on dramatic art have pronounced the show a great success.

The scene is laid in the land of Arcadia. The time is the present. The curtain rises on a scene in Madam Lindermann's garden, and the time is late in the afternoon. The second act is in the same surroundings and on the night of the same day. The time is the present.

The cast of characters was announced today as follows, in the order of their appearance:

McKee, a guest at the Inn—William Frazee.

Jim Grayson, a surveyor—Louis Smith.

Marie, an Italian flower girl—Helen Gray.

Tony, an organ grinder—Horace Pearsey.

Rosa, a maid—Helen Bebout.

George Brent, an American lawyer—William Sparks.

Prince Orloff, a guest—William Kramer.

Madam Lindermann, an inn keeper—Mildred Norris.

Pedro, a student—Loren Hunt.

Juliano Lindermann, a hen-peck husband—John Ryan.

Sam Williams, an American constable—Carroll Nipp.

Madam LaShelle, an ambitious mother—Helen Pierson.

Marcel and Felice, her daughters—Martha Fanning and Margaret Herkless.

Edward, a lackey—Ivan Alexander.

Baroness Brook, waiting maid to the princess—Virginia Haydon.

Princess Marie Louise—Rowena Kennedy.

Rose girls—Margaret Bell, Mary Walker, Marjorie Kendall and Laura Jordan.

Gypsy girls—Rasora Chance, Aileen Geraghty, Marie Hobbs and

## CONFESSES TO BRUTAL MURDER OF A WOMAN

Thomas Roach, Chicago Street Car Conductor, Admits Killing Blond Found in a Moving Van

### HE DIDN'T KNOW HER NAME

Chicago, Ill., April 21.—Thomas Roach, 27, today confessed to the brutal murder of an unidentified blond woman, whose nude body was found in a moving van on the South side here, according to William O'Connor, police lieutenant.

Roach, according to O'Connor, met the girl and took her to his apartment. "We quarrelled," Roach was reported to have said. "I took a gun and beat her with it. I saw she was dead, so I carried her out and placed her body in a moving van." Roach said he did not know the name of the girl.

Police are trying to decipher two postal cards from New Haven, Connecticut, which it is believed were addressed to her. Roach, according to O'Connor, is a street car conductor. Following Roach's confession, police sought Russell Mosley, who, according to O'Connor, was with Roach at the time of the crime.

## 30,000 PEOPLE HOMELESS

Thousands of Monastir Inhabitants Flee, Fearing More Explosions

(By United Press)

London, April 21.—Thirty thousand inhabitants of Monastir and vicinity are reported homeless today as a result of the terrific explosion of a munition train which caused the death of hundreds of soldiers and many children.

The explosion was first reported as having occurred at Salonika. Later dispatches from Belgrade showed it took place along the railroad running into Monastir.

Part of the city is still burning and owing to danger from shells and explosives, thousands of inhabitants have sought refuge in the woods.

## CITY WATER MUST MEET THE TEST

It Must be Absolutely Free From Any Poisonous Substances and Bacteria, It is Stated

### SERVICE COMMITTEE TO ACT

Will Put Forth Big Effort to Have Water in Indiana Best of any State in the Union

(By United Press)

Indianapolis, Ind., April 21.—Indiana city water must be made the best in the United States.

Water must be absolutely free from typhoid and other dangerous bacteria.

It must be free from other poisonous substances and substances that give it a bad flavor.

These are some of the things the water companies in Indiana must attain according to John McCordie, chairman of the Public Service commission as he outlined a program today to bring this about.

He plans to draw up a rigid set of rules and regulations, he said, governing water companies both private and municipal.

These rules will be laid down by a state wide committee including twenty-one prominent men and women of the state as well as officials of the commission.

On inviting members to serve on the committee McCordie explained the purpose of the program as follows:

"This commission has always striven to bring the service of the various Indiana utilities to the highest standard of excellence. It is a source of considerable gratification to the Commission that at this time the public utilities in Indiana generally are in excellent condition while, at the same time, utility rates have been held to a lower basis than anywhere else in the country."

"Heretofore, rules and standards of service have been adopted for various classes of utilities, and the effect of the adoption of these rules and standards has been very gratifying. However, rules and standards for water utilities have not yet been adopted. The water utilities of this state are in excellent condition and are rendering service which will compare favorably with that rendered by similar utilities in most other states."

"The Commission, however, is desirous of bringing all Indiana water utilities to a standard of perfection unsurpassed anywhere throughout the United States. Because of its relation to the public health and to the protection of property, the water supply of a city or town is so important that we can not render a greater public benefit than to insure to the cities and towns of Indiana an adequate supply of pure water for domestic consumption and for fire fighting."

### TONSILS REMOVED

Mrs. A. G. Shauck of Arlington underwent an operation Thursday at the Dr. Green hospital in this city for the removal of her tonsils. She is improving nicely.

## HOW TO GET MONEY IS BIG PROBLEM

To be Hardest Task of Republican Leaders From This Time on and Keep Party Pledges

### FOUR ELEMENTS CONCERNED

Consideration of Tax Problem Always Brings up Bonus Question For Taxes, Republicans Hold

By LAWRENCE MARTIN  
(U. P. Staff Correspondent)

Washington, April 21.—A problem of dollars and cents—how to finance the government and keep party pledges—loomed today as the hardest task of Republican leaders from this time on.

The problem is complex, but here are its elements:

1—Taxes, and how to keep them producing enough to run the government at the same time keep the party's promises to reduce taxation.

2—Tariffs, how to make it produce revenue and at the same time satisfy the demands of business and agriculture for protection against foreign competition.

3—The soldier bonus; how to pay it without ruining the party with the voters, or how to avoid paying it without ruining the party with the ex-service men.

4—The party put into effect a new tax law with the strong intimation that within a year taxes would again be reduced. Now Secretary Mellon warns of a \$184,000,000 deficit near year and income tax payments have fallen off alarmingly.

Consideration of the tax problem always brings up the bonus question for taxes, many Republicans hold, must be levied for at least part of the bonus payment. The hope is strong among senatorial bonus advocates that the foreign debt funding commission will complete negotiations by June through which \$4,000,000,000 worth of British bonds will be received in payment of Great Britain's war debt. Upon these money could quickly be realized to pay the bonus. But President Harding will not permit congress to count on those British bonds until the bonds are actually in hand.

## TWO RUSH COUNTY HOMES DESTROYED

Old Stanley Homestead North of Arlington is Struck by Lightning and Burns

### TENANT HOUSE ALSO FIRED

Two Rush county houses were burned to the ground Wednesday afternoon about five o'clock during a storm, one being the old Nathan Stanley homestead on the pike between Arlington and Carthage, and the other a tenant house on the Simon Martin farm, north of Raleigh.

The tenant house was occupied by Albert Trager and family and it was hit by a bolt of lightning while the family was at home, but on account of the severe wind, nothing was saved, and the family, which consists of nine children, had to flee from the burning structure. They could not even manage to save any clothing. A small amount of insurance will partially cover the loss. The farm is located in Rush county, near the Henry county line.

The house on the old Nathan Stanley farm, located two miles north of Arlington, was on fire at the same time and most of the household furniture was saved. The place is occupied by Mr. Sexton and his family. An insurance policy also will partially cover this loss.

### BUYS GROCERY HERE

George Sigler has sold his grocery store in West Fifth street to John Hancock of Indianapolis. Mr. Hancock is now in charge of the grocery store, which formerly was the Diok Smith grocery, and he and his wife moved into the rooms above the store today.

## Old Resident Given Up By Physicians

"Given up by five doctors, my only hope an operation. I rebelled on cutting me open, as I am 75 years old. A neighbor advised, trying Mayr's Wonderful Remedy for stomach trouble. I got relief right away. I had not eaten for 10 days and was as yellow as a gold piece. I could have lived only a few days but for this medicine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at Druggists Everywhere.

## MOSAIC DISEASE HARMS POTATOES

**Adequate Measures for Elimination of Ailment Must Be Taken Immediately.**

### TROUBLE SPREAD BY INSECTS

**Situation May Be Somewhat Improved by Partial Weeding Out of Worst Cases—Yield Is Reduced About 30 Per Cent.**

(Prepared by the United States Department of Agriculture.)

A survey of the Western states conducted during the past summer by pathologists of the United States Department of Agriculture shows that unless adequate measures for the elimination of the mosaic disease of potatoes are taken immediately the work of potato seed improvement in the West will soon become extremely difficult, if at all possible. Being of an infectious nature, the disease is spread in the field throughout the summer by means of insects which carry it from diseased to healthy plants, and it is also transmitted by the seed tubers from one generation to another.

There is no evidence that a plant once infected can recover and produce a healthy progeny at any time. On the contrary, the infected plants ordinarily under certain environmental conditions practically cease to produce tubers in the third or fourth generation. If only a partial weeding out of the worst cases is practiced, the situation may be somewhat improved, though not in all cases and by no means permanently. The mild and the medium stages of the disease left in the stock serve as perpetual sources of infection, and eventually the entire strain becomes diseased and is apt to "run out" completely.

**Reduces Yield 30 Per Cent.**  
It has been repeatedly demonstrated in the East that the average reduction of yield due to mosaic is about 30 per cent. Precisely the same effect of this disease was noted in the case of all the varieties grown in different Western states. Some remarkable instances were observed during the last two years of field observations carried on by the department in which the reduction of yield in individual hills was in direct proportion to the severity of the infection.

The potato acreage in certain irrigated sections of the West has been increased this year by one-third as compared with that of the last year, yet the yield in these districts is only two-thirds of normal. Many growers complain that where 300 sacks or more were raised to the acre in former years, only 100 to 150 sacks are obtainable now. This is in fields under good cultural conditions, showing good stands and a high freedom from fungus and bacterial diseases. The low yielding quality of the strains in question no doubt is principally a manifestation of mosaic. The need of good seed in the West is well recognized.

Healthy Irish Candler Potatoes.

nized and is growing every year, yet only a meager quantity of even relatively good seed is obtainable.

There is very little, if any, hope of improving badly infected strains of potatoes, the department specialists think, therefore, prompt efforts should be made to locate the most healthy strains of the various important commercial varieties. Since there is no means at present of detecting mosaic on the tuber the search should be confined exclusively to the fields during the growing season. When the best strains are found they should further be improved by the annual elimination of all the diseased individuals.

**Specialists Must Be Sought.**  
It is necessary to place this work in charge of highly trained specialists, since the identification of certain minute and peculiar characters of the disease requires a considerable experience and a great deal of pathological knowledge. Furthermore, manifestations of mosaic under the varied cultural and climatic conditions of the West are often very obscure and not yet fully understood.

### BIG NEED OF BETTER ROADS

**Engineers at Sea Regarding Highways Which Will Stand Up Under Modern Traffic.**

A. R. Hirst, Wisconsin highway engineer, has declared that the best engineers today are "at sea" regarding the kind of roads which will stand up under modern traffic, or the traffic which will develop in a few years. Travel by air, to any considerable extent, is still a long way off, and for a good many years to come there will be urgent need for better and better highways.

## PACKERS PLANNING A \$500,000,000 MERGER

**Idea Came From Armour Who Has No Son to Succeed Him in Industry—No New Financing**

### THREE OF "BIG FIVE" TO JOIN

(By United Press)  
Chicago, April 21.—Packers here today planned a \$500,000,000 merger, according to information in financial circles.

Three of the "big five" packers may join the combine, according to plans now being worked out. They are: Armour and Co., Wilson and Co. and the Cudahy Packing Co.

Consummation of plans would place J. Ogden Armour as chairman of the board of directors of the company and Thomas E. Wilson as president.

The idea for the merger, it was reported, came from Armour who has no son to succeed him in the packing industry. Armour has picked Wilson to succeed him, but it was said, to get Wilson he must buy him out.

There will be no new financing if the merger is completed it was authoritatively stated.

### WAY TO PLANT IRISH POTATO

**Crop Not Particularly Adapted to Small Gardens and Requires Well-Prepared Soil.**

While Irish potatoes are not adapted to growing in the extremely small garden, most gardeners prefer to include them in their list. One peck of seed Irish potatoes will plant about 300 feet of row. It seldom pays to plant home-grown seed and it is much better to use the home-grown potatoes on the table and purchase seed that has been produced in some locality especially adapted for seed growing. Potatoes require a well-prepared, rich soil, and it pays to use commercial fertilizer, well mixed with the soil of the hills or the rows. The seed should be cut two eyes to each piece, with plenty of potato attached. One piece should be planted in each hill and covered to a depth of about 3½ or 4 inches. The rows should be at least 30 inches apart and the hills 12 to 15 inches apart in the row.

### CAST FOR SENIOR PLAY ANNOUNCED

Continued from Page One

Dorothy Brecheisen.  
The musical score is as follows:

PERSONAL POINTS

—Luke Duffey of Indianapolis  
transacted business in this city to-  
day.

—A. H. Sutton, Russell Tittsworth  
and George Fossler visited friends  
in Greenfield last evening.

—Chauncey Duncanson and John A.  
Tittsworth were legal business visi-  
tors in Greensburg Thursday.

—Mrs. Paul Oren and Miss Ellen  
Worsham motored to Indianapolis  
today where they spent the day.

—W. E. Inlow has returned to his  
home in this city after spending a  
few days with relatives in Indiana-  
polis.

—Mrs. Christina Mauzy of Indi-  
anapolis spent Thursday with Mrs.  
Charles A. Mauzy in North Harri-  
son street.

—Mr. and Mrs. Harry Collier  
and Mrs. W. L. Downey of Greens-  
burg visited relatives in this city  
Thursday.

—Sanford Heaton motored to  
Connersville Thursday evening to  
hear Mayor Lew Shank of Indiana-  
polis speak in behalf of Albert J.  
Beveridge, candidate for the Re-  
publican nomination for United  
States senator from Indiana.

AMUSEMENTS

Noted Stars coming to Mystic

Many noted stars of the screen and  
stage were enrolled in the filming of  
"Cameron of the Royal Mounted" under  
the able direction of Henry MacRae,  
the entire story of which comes to the  
Mystic theater today, being photograph-  
ed in the foothills and mountains of the  
Canadian Rockies, thus emphatically  
telling the truth in pictures.

Gaston Glass, hero of "Humor-  
esque," "God's Crucible" and other  
screen successes has again been en-  
trusted with the leading role. Vi-  
viene Osborne, who plays beside  
him, is the well remembered juvenile  
lead of "Over the Hills," and is now  
being featured on Broadway with  
William Faversham in "The Silver  
Fox." Irving Cummings and George  
Clark head their own producing com-  
panies in California and their virile  
dramas of the Northwest are now  
being released. William Colvin, an-  
other of the east, is now in Rome  
as confidential adviser to the Ultra  
Company of Italy where Henry  
Kolker is now screening the first of  
the F. Marion Crawford stories with  
an all-Italian cast.

Gordon Griffith, the boy Tarzan of  
"Tarzan of the Apes" plays a small  
but important role and the effective  
work of Joe Singleton, Marion Mac-  
Donald and others of the east, has  
succeeded in producing a most vivid  
western drama which rings with  
truth and realism.

### Gets The Big Ones First

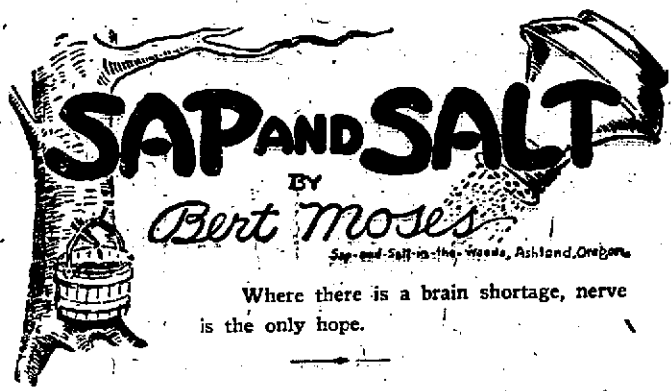

The government employs something like 40,000 girls as stenographers and typists. Their average pay is \$1,200 a year.

A treasury expert estimates that each one of these girls use up one hour a day in primping during working hours. It pains the expert to think that the government pays them \$6,000,000 a year in salaries for which it receives no return.

Should the girls be docked for the time they consume in primping and powdering their noses? Possibly they should. Not even the government should be expected to pay for services that are not rendered. But let's start right and dock impartially.

Is there a man in the government employ who really works his eight ours each day?

As a matter of fact, don't the majority of them loaf from one to two hours every day? Call it two ours as a fair example. Include among the number the gentlemanly pert who would dock the girls

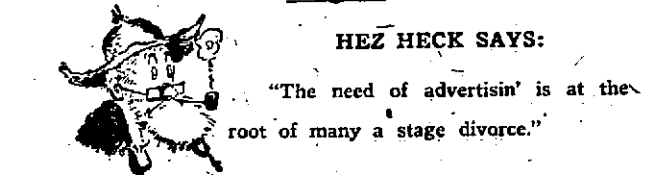

More genius is required to sell a book than to write one.

Health comes as much from leaving medicine alone as from taking it.

It takes more than statesmanship to put a country on a paying basis.

A well-placed kick sometimes supplies the exact kind of a "life" a man needs.

Court attendance is supplied by two classes—those who go and those who are taken.

"The need of advertisin' is at the root of many a stage divorce."

### We Will Take a Chance

A noted preacher says our American women are so bad they will cause the destruction of this country within fifty years.

We thank the reverend gentleman for postponing our exit for fifty years. Our eyes are still good and we can take in a lot of sights in that length of time.

It may be true, as he says, that the women of today are bad—at least some of them are. But realizing the enormity of our own masculine sins, we are not throwing any stones at the fair sex—not even at the flappers.

Then again, fifty years is a long time to wait for the blowup, or kick-off, or whatever way we are to be snuffed out.

They may be bad—we don't know—but we like 'em all, even in their badness.

We'll continue to take 'em as they come, and crowd in as many of those fifty years as we can.

Nine rahs for the women! Who cares to listen to a sky-pilot who likes to hear his head rattle, anyway.

### Other Than Material Things.

Our own experience has taught us that even in this world of reality there exists dreams and desires, thoughts and feelings of beauty, of justice, and love, that are of the noblest and loftiest—Masterlinck.

### No Old Women Nowadays

Modern dress, hair dressers, facial experts and cosmetics all combine to keep women of all ages young and attractive in appearance. Not until the telltale wrinkles become so deep, the figure stoops, or some ailment or weakness develops to drag a woman down does she really look her age.

Every woman owes it to herself and her family to keep herself young in appearance, and happy. When headaches, backache or "the blues" develop or when a woman reaches the trying age from forty-five to fifty, Lydia E. Pinkham's Vegetable Compound may be depended upon to keep her in health as it has so many other women whose letters we are continually publishing in this paper.—Advertisement.

Final arrangements were made for the May fair which will be held May 4 and 5 in the church basement. During the special hour a two course luncheon was served.

Attend the Catholic Ladies Exchange at Kramer's Meat Market—April 22. Plenty of chickens and good things to eat.

## NATION ON THE WAY BACK TO NORMALCY

Senator New, Before Returning to Washington, Gives Out Statement Presenting Facts

### GIVES HARDING THE CREDIT

Says Grand Marshal is at the Head of the Procession and Knows Where He is Going, Too

Indianapolis, April 21.—United States Senator Harry S. New, who left here Thursday afternoon for Washington, gave out a statement prior to his departure in which he presents facts and figures showing that the nation already is well along the road back to normalcy, despite the fact that his opponent for the republican nomination for senator, is seeking to make it appear that his presence in the United States Senate is "the one grand and all-compelling pre-requisite" to bring about a return to prosperity.

Senator New, who has been here since Sunday, left for Washington in response to a telegram calling him back. Although extremely busy with the managers of his campaign, the senator immediately made arrangements to return to Washington as soon as he received the telegram. Senator New's statement was read by him before a meeting of the county managers of his campaign.

After presenting evidence showing that the country is well along the way back to prosperity Senator New said that "possibly the men who have been shaping the affairs of government during the last year have had something to do with it."

"First and foremost among them, I name Warren G. Harding—a Republican President," the Senator said. "Next I claim a share in what has happened and what is going to happen for those who have helped him along a thorny and rocky path and stand willing to help him in the days that are to come. Oh, no, I don't propose to stand on the sidelines and watch the procession march past for I have been marching with that procession since it started a year ago and while it hasn't reached the end of its journey, it has progressed far enough for us all to know that the Grand Marshal knows where he is going."

### Strikes at Root of Indigestion

Dr. Jackson's Digestive and Liver Powder Quick in Relief. Free Sample Sent on Request.

This is proven. Usually the first dose banishes attacks of acute indigestion. One reason is it is a powder and immediately dissolved in the stomach and rendered ready for action. In ordinary cases of indigestion, such as palpitation of the heart, heartburn, sour stomach, gas bloating and similar evils, a single dose often brings relief.

A great many signed statements are on file to this effect. The promptness with which Dr. Jackson's Digestive and Liver Powder takes effect is celebrated among its users. If not satisfied with results after using the first box, your money will be cheerfully refunded. Price 60c. Write today to Jackson Medicine Co., Zanesville, O., for free sample. Sold by most druggists.

## HIGH SCHOOL DOPE

BY MR. R.H.S.

Four more weeks of school for the Seniors. The question is, can they stand the gaff?

The baseball team played Raleigh Tuesday evening. And we failed to write up the game Wednesday. And we failed again to write it Thursday. The reason was that "Jadda" Sparks lost the score sheet. (Our alibi for laziness). But it's better late than never so here goes: The most important thing about the game was that Rushville won it—8 to 7. An error in the 1st inning paved the way for four runs for Raleigh. Three men should have been put out but one of Sutton's men let one slip. After that we held Raleigh to three runs, one in the third and two in the last. Rushville had a harder time getting under way on the run business but when they got started they rambled, scoring one in the second, one in the third, two in the fourth, and four in the sixth inning. Two errors were made by Rushville during the game, Raleigh playing an errorless game. Sutton's team played a good game, and lived up to the reputation it earned in the Webb game.

Tracy Cross was the individual star. In fact Tracy saved the game. In the seventh inning a Raleigh batter popped the ball up into the blue heavens for a homer. It fell to earth, or rather started to fall, in the near vicinity of Tracy, who was holding down the post of an outfielder. Tracy caught it. If he had missed it, the score would have been tied, and one more inning to go. And you never can tell what might have happened in that extra inning.

Today the team has higher aspirations than just defeating a baseball team from little schools. At two o'clock the team left for Indianapolis where they will battle with the fast nine of Cathedral High school, Steppin' way out there, we'll say.

A sweet young thing wanted to know if the game this afternoon was going to be held at Washington Park. No, we're not in the big league yet.

School let out at two-thirty this afternoon. Nobody seriously objected to the idea.

The cast for the Senior Class play will motor to Milroy tonight where they will witness the Milroy class play, and criticize it. "Kitty, kitty, kitty!"

Senior class orders commencement announcements. Suggest the following inscription for them: "Please reprint."

Yes, the Juniors and Sophomores and the Freshmen are still going to school. They aren't doing anything though. Just envying the Seniors that are going to graduate.

### This Time Last Year

Babe Ruth got his third homer, two doubles and a single in 4 times up against Moore in Philadelphia.

George Kelly hit his third homer off Hubbell, Phils, in New York.

Frank Baker was reinstated by Commissioner Landis.

The Giants lost the opening game on the Polo Grounds and Pittsburgh took the league lead.

### How They Stand

American Association		
Won.	Lost.	Pct.
Minneapolis	6	1 .857
Kansas City	5	3 .625
Indianapolis	4	3 .571
Milwaukee	4	3 .571
Columbus	4	4 .500
Louisville	3	4 .429
St. Paul	2	5 .286
Toledo	1	6 .143

American League		
Won.	Lost.	Pct.
Cleveland	6	1 .857
New York	5	2 .714
St. Louis	4	3 .571
Philadelphia	4	3 .571
Chicago	3	4 .429
Boston	3	4 .429
Washington	2	5 .286
Detroit	0	6 .000

National League		
Won.	Lost.	Pct.
New York	5	1 .833
Chicago	5	2 .714
Philadelphia	3	2 .600
St. Louis	4	3 .571
Pittsburgh	4	3 .571
Brooklyn	2	4 .333
Boston	1	4 .200
Cincinnati	1	6 .143

### Thursday's Results

**American Association**  
Indianapolis, 3; Kansas City, 0.  
Minneapolis, 4; Toledo, 2.  
St. Paul, 9; Columbus, 3.  
Milwaukee, 11; Louisville, 5.

**American League**  
Cleveland, 5; Detroit, 4.  
New York, 10; Washington, 3.  
Boston, 15; Philadelphia, 4.  
Chicago, 4; St. Louis, 2.

**National League**  
New York, 8; Brooklyn, 1.  
Chicago, 3; Cincinnati, 1.  
Pittsburgh, 10; St. Louis, 5.  
Philadelphia-Boston (rain).

### OUTLOOK FOR TODAY

New York—Sunshine. Yankees, Hoyt; Senators, Erickson.  
Brooklyn—Sunshine. Robins, Reuther; Giants, Nehf.  
Detroit—Clear. Indians, Coveleskie; Tigers, Oldham or Stoner.  
Chicago—Fair. Cubs, Cheever; Reds, Rixey.  
Philadelphia—Fair and cold. Athletics, Naylor; Red Sox, Collins.  
Pittsburgh—Snow and cold. Pirates, Glasener; Cards, Haines.  
St. Louis—Clear. Browns, Danforth; White Sox, Wilkinson.  
Boston—Clear. Philadelphia, Meadows; Braves, Marquard.

**American Association**  
Milwaukee at Louisville, cloudy, 3:15 p. m.  
Kansas City at Indianapolis, rain, 3 p. m.  
St. Paul at Columbus, cloudy, 2 p. m.  
Minneapolis at Toledo, cloudy, 3:30 p. m.

### The Score Board

Yesterday's hero—George Burns, Red Sox first baseman, hit two homers and two singles and helped beat the Athletics, Elmer Miller and Joe Dugan also smacked one for four bases.

Elmer Miller, Yankee outfielder, hit his second homer in two days, rapped out a single, drove in two runs and scored two himself, the Yanks winning from Washington, 10 to 3.

Two runs trickled in when Ellerbe dropped a pop fly in the first inning and the White Sox beat the Browns 4 to 2.

The Giants mauled Vance and Smith for three runs each in the first two innings and beat the Robins 8 to 1.

One run in the rear in the ninth inning, the Cleveland Indians scored a pair and handed the Tigers a 5 to 4 defeat, the sixth straight loss for Ty.

Heavy hitting by Maranyville, Tierney and Bigbee, gave the Pirates a 10 to 5 victory over the Cards, Hornsby's homer was the only bright stuff for Rickey.

Alex the Great held the Reds to three scattered hits and although getting five hits off Donahue, the Cubs won 3 to 1.

## TO PLAY ON SUNDAYS TAIL LIGHTS ARE AWAY

**Webb All Stars Are Organized and Will Meet Andersonville Here in First Game**

### LOCAL AMATEURS ON TEAM

The Webb All Stars have organized for the season and have contracted for the West Third street ball diamonds during the Sundays that the Tail Lights are away from home, and the first game has been announced for Sunday when the Rushville team will hook up with the team from Andersonville.

The Webb team is composed of the best players living in the Webb neighborhood and from this city and they expect to play only the best teams in order to give the fans a good game when the Tail Lights are on the road.

Clarence Weidner, who is janitor at the Webb school is manager of the team, and Clyde Martin is book-keeping agent, and any team that desires a game with them, should call Mr. Martin at 4101, one short, and one long ring.

## TAIL LIGHTS READY FOR FIRST CONTEST

**New Faces Will Appear in Rushville Line-up When They Invade Greensburg Sunday**

### THREE PITCHERS ON STAFF

The Tail Lights are all primed for their first invasion in the Indiana baseball league, when they go down to Greensburg Sunday and several new players have been added to the line-up for trials, so that a good team can be placed in the running by the time that the league officials decide to limit the players for the season.

Ray Jeremie, a pitcher of wide reputation, who played some with Greenfield last year and defeated Hope, will be with the Rushville team Sunday, as will Plummer and Huddleson, two other pitchers. Jerome hails from Terre Haute, and on Tuesday pitched against Rose Poly, in which game he allowed only one hit in the five innings that he was on the mound.

The two Wagner brothers of Osgood, heavy hitters and good fielders, will be given a tryout Sunday, as each of them is anxious to get on the local team. One is an outfielder and the other is a catcher and outfielder. Chase McCarty of this city also will be along and will be on hand for the first sack position.

### Sport Summary

Watersbury, Conn.—After an investigation Frank Garvan, graduate manager of athletics at Fordham, announced that the Fordham varsity played against the Waterbury eastern league club last Sunday.

Princeton, N. J.—Walter McPhee, Brooklyn, was elected captain of the Princeton baseball team to succeed Tom McNamara, one of the Athletics declared ineligible in the recent house cleaning.

New York—Floyd Fitzsimmons who says he has Jack Dempsey signed to fight in Michigan City on Labor Day, told friends here that Bill Brennan, Chicago heavyweight who has met the champion twice, probably will be his opponent.

Urbana, Ills.—J. Craig Ruby basketball coach of the University of Missouri, has accepted terms to coach the University of Illinois five next season.

Chicago—Johnny Overlook, a pitcher for the St. Louis Browns, arrived in Chicago today to join the Marquette owners of the Mid-

west league. Overlook deserted the Browns at Cleveland.

New Haven, Conn.—Langhorn Gibson, captain of the Yale varsity crew, son of Charles Dana Gibson,

the artist, and the nephew of Lady Astor, gave up his position in the shell in favor of a lighter man for all the short races. He will row only in the four mile event against Harvard.

Richmond, Indiana, April 21, 1922.

## To the Voters of the Sixth District:-

On January 2, 1922, through the press I announced that I was a candidate for the nomination on the Republican ticket as Representative from the Sixth Indiana District in the National Congress at the Primary May 2, 1922. I entered this race at the urgent request of the Republicans of my home county (Wayne), who were joined by like persons of other counties who believed that at this time there should be a contest and the voters given a chance to express themselves as to their preference at the Primary. We are now nearing the end of the campaign and I wish to restate, my position that voters may think it over carefully, and judge of my fitness to serve them. If successful in the nomination and the election, I shall do my very best to follow the path of duty and justice. The people of our district have varied interests. Today many of these are sorely tried, tomorrow it may pass on to another class. It shall ever be my endeavor to represent all of these varied interests and at times when such interests are calling for representation. It may be popular for a congressman to aspire to represent a class in his district, but it is far wiser and better for him to endeavor to represent his district.

The broader view when taken by a legislator to represent his district will be a positive guarantee that he will not misrepresent any particular group. This is not to be interpreted that I will merely support majority measures which would pass without my aid, but that I shall ever be watchful of the interests of my home folks and make their welfare the majority issue when such representation is needed.

It is of prime importance to reduce public expenditures and lower the taxes created by the national government. The many Boards, Bureaus and Commissions which unnecessarily add to the governmental expenses and under the present economic condition make it necessary to return to the Constitution and to simple Representative government.

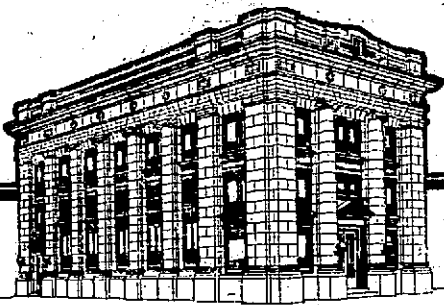

We should produce an economic revival not by temporary specifics of class legislation but by going to the fundamentals of production and of distribution and obtain markets for our products. Every workman should have a job at which he can earn a living and take care of his dependents and have some leisure to enjoy the pleasures of life, and every farmer and manufacturer should have a profitable market for his products. The American mind of Independence and enterprise should be stimulated.

Our nation is justly proud of the achievements of our soldiers in the "world war" and we should make just provision for their welfare! America must take her part in world affairs in such a way as to guard her rights and the liberties of every citizen.

I shall appreciate your support in the coming Primary and Election.

Respectfully,

**Charles O. Williams**

# SOCIETY

Edited By Miss Edna Krammes  
Phone 1111

Miss Alice Norris has returned from Indianapolis where she has been visiting friends. On Wednesday she attended a Japanese luncheon given at the Woman's Department club as the guest of Mrs. L. O. Hamilton of Indianapolis.

The Women's Foreign Missionary societies of the Connersville Methodist district held a convention Wednesday at the Columbia Methodist church in Connersville. On account of the inconvenience of reaching the church, which is situated in the suburbs of Connersville, no delegate from the local society was appointed. Mrs. Hattie Asbury of Indianapolis, conference secretary, and Mrs. Samuel Ward of College Corner, district president, were guests of honor at the meeting and took part on the program.

Mr. and Mrs. E. R. Smith announce the marriage of their daughter, Miss Inez R. Smith of New-castle, to W. S. Arbuckle of Indianapolis, son of Mr. and Mrs. E.

O. Arbuckle of this city, on Sunday, April 16, in Indianapolis. They will be at home after May 1 at 2150 Ashland Avenue, Indianapolis. The bridegroom, who is better known here as Syril Arbuckle, was graduated from the Rushville high school with the class of 1919 and later entered the service. He is now employed by the Hydraulic Press Brick company of Indianapolis.

Miss Gertrude Ertel was delightedly surprised by a number of her friends Monday evening at her home north of the city. The surprise was planned and carried out by her sister Miss Ruth. Those present were the Misses Frona Cifton, Bessie Freer, May Taylor, Lucille Bowen, Estella Carson, Vesta Maddy, Frances Clemmens, Ruby Maple, Ophelia Heath, Bernice Green, June Light-foot, Merle Gordon and Fred New-kirk, Harold Sharp, John Arnold, Seiss Wagner, Arthur Clifton, William Ertel, Floyd Kirkham, Myron Hood, Scott Poer, William Newkirk, Flavius Hyatt, Thelmer White and Carl Ertel. The house was decorated in blossoms and wild flowers. The evening was enjoyed with playing games and dancing. Refreshments were served by Mrs. Win Ertel and Mrs. Ben Ertel.

Mrs. Charles Hugo was hostess Thursday afternoon to thirty members and guests at the April meeting of the Rushville chapter of the D. A. R. After a short business session the president general's message was read by Mrs. Willard Amos. A vocal duet was rendered by Mrs. Georgia Moore and Miss Wanda Wyatt. An interesting paper also was given by Mrs. Mae Logan on "American Indiana." Refreshments were served during the social hour, the assistants being Miss Emma Blackledge, Mrs. Jessie C. Green, Mrs. Jessie Gary and Mrs. Josephine Brown. Mrs. Rachel Joens of Chicago, a member, was present for the meeting.

Miss Sylvia Mullins was a gracious hostess Thursday evening when she entertained a number of her friends with an announcement dinner party, announcing her engagement to Richard Byrne of this city. Pink and lavender was the predominant color scheme used in the table decorations. A large bouquet of pink and lavender sweet peas adorned the center of the table and

pretty pink heart baskets containing pretty favors of bride's slippers, wedding bells and hearts were attached to the centerpieces with ribbon streamers. Individual candlesticks with pink candles added to the beauty of the decorations. The engagement was cleverly announced through the place cards which were messenger boys carrying a telegram which contained the announcement. Covers were laid for eighteen guests. The wedding will take place late this spring.

Mrs. Hugh Mauzy of this city attended a musical tea given by the Mu Phi Epsilon sorority at the Lincoln Hotel in Indianapolis Thursday afternoon. A violinist and pianist gave the program during the

afternoon. Miss Jessie Kitchen of Columbus, Ind., formerly of this city, was also among the guests.

The P. A. L. club of Falmouth held an enjoyable meeting Thursday afternoon at the home of Mrs. Fred Martin in Falmouth. The responses to the roll call were "Housecleaning Hints." Following the roll call a business meeting was held, during which unfinished business which was left over from the last meeting, was completed. A dainty luncheon was served by the hostess to ten members and two guests, Mrs. Orville Martin and Mrs. Thomas Martin. The next meeting will be held at the home of Mrs. Howard Kehl, May 4.

#### OF PERCALE AND DIMITY

Polka dotted percale and white checked dimity make this pretty dress for little missy. It is in two pieces. The blouse of the dimity has a Peter Pan collar and turn-back cuffs adorned with feather stitching of silk floss. A white silk cord ending in small tassels is laced across the front of the bodice and a patch pocket at one side maintains that practical things can be pretty.

#### Separated in Heaven

Chicago, Apr. 21—Death has separated Josefa Blazek from her Siamese twin sister, Rosa, George C. Warne, president of the National Spiritualists association said today. According to Warne, who is presiding over a state convention of Spiritualists, the spirit of Rosa attended the convention when she was summoned to "testify" about life in the other world.

"Although Rosa was in the seance room only a few minutes," said Warne, "we know the contact had been established and that she was alone."

The Blazek sisters died here recently. "How Anna Won Out. "Funny how things work out sometimes," said the married marine to a bunch of his buddies. "Two years ago I was going around with Ethel and Anna, and I couldn't for the life of me tell which of the two I wanted to marry. One night I dropped into the post exchange to buy a cigar. Right on the cigar band, as large as life, it said, 'Hav-anna!'"—Leatherneck.

## MORE EFFICIENT SCHOOLS, - BURRIS

State School Head Lays Plans to Correct Defects Which He Found on Recent Visits

TO SEEK NEW STATUTES

Teachers Should Receive More Training, He Says, and Prepares Questions For Them to Study

Indianapolis Ind., April 21.—Plans for greater efficiency in the operation of Indiana schools were announced today by Ben Burris, superintendent of the state department of public instruction.

He proposed revision of Indiana statutes to compel teachers to receive more training.

"All items of school expense are created—school houses are built, equipment purchased and teachers employed that the recitation may function properly," Burris said, urging all teachers to make an inspection of their methods of teaching.

His ideas are based on observations he made while on a series of visits to schools and meeting with county superintendents in various counties during January and February. He said, he found that much of

the teaching was good but some of it was very poor.

"In many cases it was evident that the teacher had a fundamental grasp of the subject matter upon which she was teaching and had made the lesson assignment carefully. In these cases, the recitations were so conducted as to achieve good results," Burris asserted.

"Other cases were observed, however, in which it was quite evident the teacher had not carefully prepared the lesson and had been indifferent in making the lesson assignment."

He also found many other faults. Here are some of the questions Burris wants the teachers to ask themselves:

Do I anticipate my recitation and plan accordingly?

Do I permit the bright pupils to do all the reciting?

Do I make questions simple, direct and clear?

Do my questions stimulate thought?

Do I make applications of my points to present everyday problems?

Do I have a good reason for the questions I ask?

Do I hold the pupil responsible for answering the question asked and make failure to answer serious?

## COAL PRICES GO UP ON SOME MARKETS

Western Wholesale Markets Report  
Increase as Result of Nation-  
Wide Miners Strike

### RESERVE PILES DIMINISH

Despite Freight Rates the Big Consumers  
Are Crowding Market  
For Non-Union Coal

By FRED G. JOHNSTON  
(U. P. Staff Correspondent)

Indianapolis, April 21.—Coal prices are going up on the western wholesale market as a result of the nation-wide miners strike, according to reports reaching United Mine Workers headquarters here today.

The wholesale reserve supply stored by Illinois and Indiana mine owners is being depleted rapidly and they are holding what they still have on hand to maintain their idle properties—or selling it at increased rates.

Southern Illinois pine run coal is bringing \$3.00 to \$3.50 a ton. Before the strike it sold at wholesale for \$2.25 to \$2.50. Similar increases were reported in mine run from Central Illinois and Indiana fourth and fifth vein.

Products of the non-union fields of West Virginia command the same prices they did three weeks ago before the strike started. But there is little demand in the west and middle-west for eastern coal because of high freight rates. The rate from West Virginia to Chicago is \$3.58 a ton.

Despite prevailing freight rates, big consumers are crowding the market with inquiries for non-union coal, but sales are not heavy in view of the ultimate cost.

All mines in the middle west are closed by the strike, union officers declared except a small field in Western Kentucky where the union still has a wage contract with the operators. Some operators are expected to sound an ultimatum soon advising the strikers if they are not back at work by a fixed date, other men will be employed in their places.

This will not cause any of the mine workers to leave the ranks, union officers claimed.

As a move to force down the retail price of coal in Indiana, R. B. Coapstick, traffic manager for the state Chamber of Commerce, has filed two complaints with the Interstate Commerce Commission in Washington asking for a readjustment of freight rates into Indiana from Ohio, West Virginia, Pennsylvania and Kentucky coal fields.

Coapstick characterized existing rates as "unreasonable, unjust, unduly prejudicial and unjustly discriminatory." He asked that rates to Hartford City, Terre Haute, South Bend, Ft. Wayne, Muncie, Anderson and other Indiana towns be reduced to the level of the rate to Indianapolis which is \$2.80 a ton.

## Have Dark Hair And Look Young

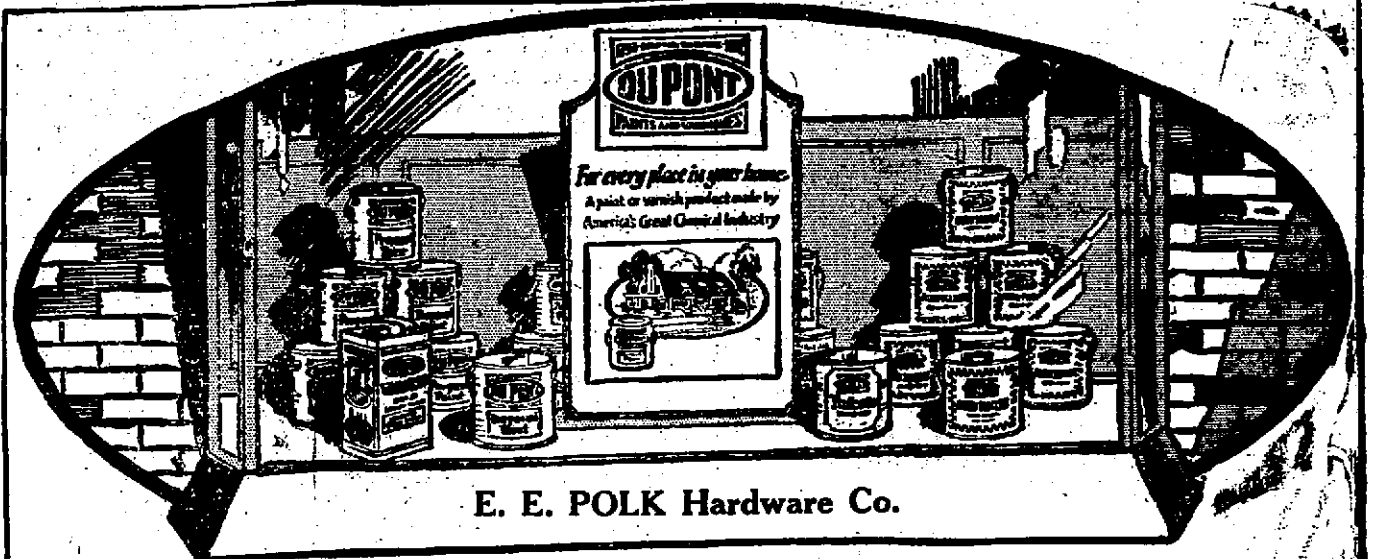

Nobody Can Tell When You  
Darken Gray, Faded Hair  
With Sage Tea

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied, with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through the hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color, and looks glossy, soft and beautiful.

E. E. POLK Hardware Co.

Paint must protect as well as beautify—one reason why Du Pont Prepared Paint is the best for exterior use.

For finishing interior woodwork use Du Pont Shipolex Varnish or Du Pont Enamel.

A can of Tufcote, the quick-drying Du Pont Varnish Stain, is a surety against marred and scarred furniture.

Du Pont Auto Finish in a few hours' time will make the old car look like new.

Save the surface and you save all. Du Pont.

## Tomorrow you will pass this store.

TOMORROW, possibly, or surely the next day, you will pass this store. Here's a suggestion for tonight. Take a note book and a pencil—start in the attic, go right down through the house to the cellar and jot down the things that can be given a new lease of life with a little paint or varnish. You'll be surprised to see how many there are.

And here's another suggestion. When you buy the paint—keep two things in mind. First, you want good paint and, second, you want the paint made for exactly your purpose. There is where we can help. First: There is no better paint or varnish than Du Pont—made by America's Great Chemical Industry. Second: Our Du Pont line is complete. Here we can give you the paint or varnish that fills your exact requirements. Bring in your painting list. We will give you cost and time estimates. We do more than sell paint—we give real paint service.

The place in town to buy paint:

**E. E. POLK**

110 North Main St. Rushville, Ind.

There is a Du Pont paint or varnish product made for every purpose by America's Great Chemical Industry.

## BUGGY HORSES ARE FAST DISAPPEARING

Ratio is About One to 100 Farms in  
State With Big Decrease Since  
1912

### RATIO VARIES IN THE STATE

(By United Press)

Indianapolis, Ind., April 21.—It is hard to find one buggy horse on a hundred farms in some parts of Indiana, George Bryant, Indiana representative of the U. S. department of agriculture said today.

Of course the ratio of horses is greater in some parts of the state where farmers are not prosperous enough to buy automobiles and tractors and where the roads are bad, but in the north it is generally true.

Since 1912 there has been almost a 12 percent decrease in the horse population of Indiana, Bryant said.

In the last few years farmers have been taking advantage of the fact that mules are easier to raise and when it comes to strength and endurance mules come far ahead of their half brothers.

### ANTI-SALOON BODY ACTIVE

Midwestern Convention to be Held  
in Milwaukee May 25 and 26

(By United Press)

Milwaukee, Wis., April 21.—Active participation by National and State anti saloon leagues in the coming primary elections was announced today in the calling of a midwestern convention of the league workers of thirteen middle western

states to be held in Milwaukee May 25 and 26.

States to be represented are Minnesota, Wisconsin, Iowa, Illinois, Michigan, Indiana, Ohio, Kentucky, Missouri, Kansas, Nebraska, North and South Dakota.

The Milwaukee meeting is one of eight to be held over the nation between now and primary time.

# Our Pledge To the Farmer

We will carry at all times a complete stock of repair parts for all machines we sell.

We will carry only genuine IHC repairs for McCormick-Deering Machines, as these are the only ones made from the original patterns. They are exact duplicates of the same parts made for new machines.

We refuse to sell "Will-Fit" or "Made-For" imitation parts made by concerns that do not have the same interest in the continued good work of your machines that the manufacturers of the machines have.

If we do not have in stock the repair parts for any machine we sell, we guarantee to get them at once from the nearest branch house.

When we order emergency repairs — rush orders — from the branch house, we promise not to charge you extra for any telegrams, telephone tolls, express or parcel post charges that we may incur in getting them, for it is our business to keep in stock what you need.

We will not under any circumstances, charge you one cent more than regular price for any repair parts you buy from us. This applies to repairs for all McCormick-Deering machines, whether you bought the machines from us or elsewhere.

You may expect a visit from us in our new red Sales and Service Truck

We know that we are not entitled to one dollar's worth of your business unless we can deliver one hundred cents' worth of value, quality and service for every dollar you spend with us. Thanks to a quality line, and to our good old Golden Rule business policy, we are able to turn your money into real farm equipment value when you buy here.

The McCormick-Deering Line provides the best-known and most complete line of tractor-operated equipment on the market. The tractors and machines are designed to work together as field units.

## McCORMICK-DEERING FARM MACHINES

Power Machines	Corn Machines	Tillage Implements
Tractors, Engines and Motor Trucks	Planters, Drills, Walking and Riding Cultivators, 2-Row Cultivators, Disk Cultivators, Binders, Pickers, Ensilage Cutters, Shredders and Shellers.	Tractor, Riding and Walking Plows for all soils, Disk Harrows, Peg and Spring-tooth Harrows, Culti-Packers, One-Horse Cultivators.
Grain Harvesting

**BEEF CATTLE CLUBS ARE PROVING POPULAR**  
Many Counties Have Boys and Girls Clubs in Which Entrants Will be Made at State Fair

**IS LIKE PIG CLUB WORK**

(By United Press)  
Lafayette, Ind., April 21.—Boys and girls beef cattle clubs are proving unusually popular this year in Indiana club work and many calves have been or will be given out during the next few weeks in a number of counties, all of which will send some entrants to the baby beef contest at the state fair in September.

Some of the counties in which clubs have been formed are Tippecanoe, Delaware, Gibson, Hancock, Parke, Jay, Morgan, Montgomery, Bartholomew, Blackford and Huntington.

Local fair associations, county beef cattle breed associations, banks and others vitally interested in the agricultural development are financing the clubs, thus enabling the boys and girls to buy the calves. County agricultural agents or vocational teachers in most cases are supervising the club work except in Delaware county where Charles Koontz vice-president of one of the local banks, is doing the work himself as part of the agricultural extension work of the bank. In other counties breeders are doing the work themselves or giving valuable assistance in helping the young stockmen along.

**ATTENDS I. U. CONFERENCE**  
Supt. J. H. Scholl to Preside at Afternoon Session Saturday

J. H. Scholl, superintendent of the Rushville public schools, went to Bloomington today to attend the ninth annual state conference on "Educational Measurements," which is being held today and tomorrow under the auspices of the school of education of Indiana university.

Supt. Scholl will preside at the closing session Saturday afternoon. W. E. Waggoner, superintendent of the Rush county schools, was to speak at that time on "The Practicability of Intelligence Tests," but found it impossible to attend the conference on account of his duties in connection with the closing of many of the county schools.

**Medical Note.**  
A good cure for tonsillitis is a sleeve wrapped around your neck with a young lady's arm in it.

Miss Gleda Houghton, teacher of expression, of Connersville, Indiana, will present her pupil, Miss Edna Creamer, in a public recital at the Christian church in Glenwood Wednesday evening, April 26. Her program will consist of costume readings, monologues, juvenile impersonations and pianologues. The recital will be given under the auspices of the Women's Missionary Society of the Glenwood Christian church. 341f

**GOVERNOR OF PORTO RICO TO BE REMOVED**  
Harding Convinced That Riley is Not The Man to Govern the Island, It Was Reported

**NOT TO GET HIGH GOV'T POST**

Washington, April 21.—E. Mont Riley, of Kansas City, will be removed as governor of Porto Rico in the near future, it was learned today from a source close to President Harding. The president it was said today by one of his confidantes on Porto Rican matters is "convinced" that Riley is not the man to govern the island and has decided it would be unwise to leave him there much longer.

It was also said that the president had abandoned any thought he may have had of transferring Riley to a high government post in Washington, such as membership on the war finance board.

A place on this board would have been given Riley, it was said, had he been able since his return to the island after a visit to Washington recently, to settle his differences.

Instead officials here believe matters have become worse. Harding is said to feel that the governor is not guilty of any wrong doing, as has been charged by Porto Rican representatives.

**Molasses on the Water.**  
During a hurricane in the West Indies the tank steamship Philip Publicker, carrying molasses in bulk, pumped overboard 280,000 gallons of the liquid to smooth off the seas and break their force. The action of the molasses on the water seemed to have the same effect as oil.—Ship News.

## RADIO

### PROGRESS OF RADIO THROUGH THE YEARS

Wireless Research Began Long Ago, But Development Has Been Swift Lately.

Wireless research started many years ago, as far back even as 1827. Even the radio telephone is not a recent perfection; rather it is that introduction to the layman of the human voice and music has suddenly popularized something that wireless men had thought a pastime or amusement. Here is the chronological record of wireless:

1827—It was found that the magnetic discharge from a leyden jar would magnetize a steel needle.

1831—Electro-magnetic induction was discovered between two entirely separate circuits by Michael Faraday.

1837—Cooke and Wheatstone of London, England, and Morse of the United States take out first patent for electric telegraph.

1838—K. A. Steinheil of Munich suggested that a system of wireless telegraphy could be established after his discovery of the use of the earth return.

1840—Joseph Henry (U. S. A.) produced the first high-frequency electric oscillations, and stated that the condenser discharge is oscillatory.

1842—Wireless experiments were made by S. F. B. Morse by electric conduction through water across Washington canal and across wide rivers.

1849—A wireless system for transatlantic communication was suggested. 1845—Water was used as a conducting medium in wireless experiments across a wide river.

1849—Intelligible signals were actually sent across a river 4,500 feet wide in India, but the cost was found prohibitive for commercial use.

1897—The electric waves that are now utilized in wireless telegraphy and telephony were predicted in an

distance of 60 miles by radio signals. 1901—Radio communication started with five islands in the Hawaiian group. The first British ship is fitted with the wireless telegraph.

1902—Radiograph signals received aboard vessels at sea at 1,500 statute miles. Signals received from a distance of 2,000 miles.

1903—King Edward receives a radio message from President Roosevelt. High-power stations were ordered by the Italian government. First transatlantic radio message sent. Telegraphic news service for ships at sea is started. Marconi knighted in Russia.

1904—The first press message was sent across the sea.

1905—Patent suit started in New York between the Marconi and De Forest company.

Patent for horizontal directional aerial is taken out. This was a great step forward in long-distance work.

1906—International conference is held in Berlin, at which most of the countries of the world are represented.

1907—The use of steel disks for producing notes were successfully tested.

Radio stations in Ireland and Nova Scotia were opened for limited public service.

1908—Radio stations opened for unlimited public service between Great Britain and Canada.

1909—Steamship in collision with another off the coast of Florida succeeds in calling assistance by radio.

1910—Marconi receives messages 8,700 miles while on board ship going to South America.

Spanish radio company formed. 1911—Canadian government leased radio stations for 20 years.

1912—Radio distress signals from the Titanic bring assistance and save lives of 700 passengers.

1913—Tests were made between the Eiffel tower in France and the station at Washington. During the trip into Central Asia an explorer received his longitude and time signals from a distant radio station.

1914—Marconi and radio officials start test of wireless telephone between vessels of the Italian fleet. The test was continued between vessels on the high seas and voices were heard with clarity at a distance of 44 miles. One day radio telephone communication was kept up constantly for 12 hours. Great Britain declared war

Elizabeth A. Bergner, Radio Instructor in Lane Technical High School, Chicago, and Her Class.

address before the Royal Society in London, England.

1850—The sending of an electric current through earth was systematically studied by John Trowbridge of Harvard. It was found that signaling might be carried on over large distances between places not connected by wires.

1855—It was found that telephonic speech could be conveyed by induction over a space of quarter mile. This experiment took place in England.

1859—Electric waves were suggested as being particularly suitable for the sending of signals through fogs.

1892—An instrument for the detection of electro-magnetic waves was discovered which was given the name of a "coherer."

1894—A scientist of Berlin signaled through three miles of water.

1895—High frequency waves excite curiosity of Senator Marconi.

1896—First patent for practical wireless transmitting system is taken out in London by Marconi. Afterward, successful signaling was carried out over distances as great as one and one-quarter miles. Sir William Preece of the British postoffice system interested his cohorts in Marconi's wireless experiments.

1897—Marconi establishes communication between points four miles distant. Balloons were used to suspend antennae.

Marconi demonstrates his wireless system before the king of Italy, communicating with two Italian warships nine miles distant.

The first Marconi station is erected on the Isle of Wight and experiments conducted over a distance of 14 miles.

Near the end of the year the first floating wireless station was successfully operated.

1898—The first paid marconigram was sent from the Isle of Wight station.

1899—Reports made on lighthouse accident by radio. First French gunboat is fitted with radio apparatus. In Vienna communication between two balloons is established. New York Herald receives radio report of international yacht races. The British war office introduces Marconi apparatus into the South African battlefields.

1900—German vessel communicates a

upon Germany August 4 and all private radio telegraphy and telephony suspended.

1915—Radio communication between America and Japan is completed. The stations were located at San Francisco and Tokyo with a relay station at Honolulu.

The American Telephone and Telegraph company succeeded in radio telephoning from Arlington station at Washington to Hawaii, a distance of nearly 5,000 miles.

Secretary Daniels of the United States navy transmitted telephonic messages from Washington to the Brooklyn navy yards.

1916—President Wilson and the m-l-kado of Japan exchange messages over the new transpacific radio service, which is formally opened.

1917—Senator Marconi visits the United States and aids greatly in recruiting for radio operators for the United States army.

1918—Wireless telephony progressed rapidly, being used to a great extent in the equipment of airplanes.

Several new long range stations were erected in the United States, it being claimed for one built at Annapolis, Md., that it was capable of communication at 4,000 miles. The United States government also opened a high-power station at Bordeaux.

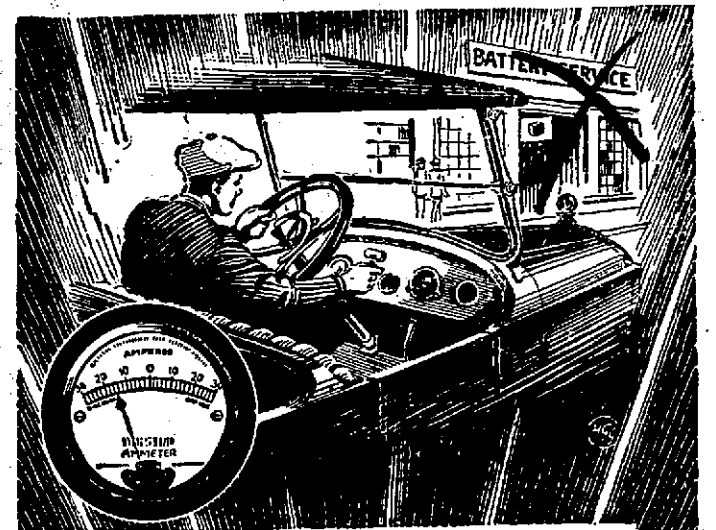

In September of this year radio signals sent from a point 12,000 miles away were received in Sydney, Australia.

1919—With the exception of the three transatlantic flights—that of the U. S. NC-4, and the British flights of Alcock and Brown and the dirigible R-34, in which radio communication played an important part in keeping the ships of the air on their courses—no very great progress was made in radio telegraphy, although radio telephony was being pushed along quietly.

Restrictions upon amateur receiving and sending were lifted by the American government.

1920—This was the year of the radio telephone, more attention probably being paid to this branch of radio than to its older brother, telegraphy. Several broadcasting stations were opened.

1921—This year was another radio telephonic year. It was marked by the opening of numerous broadcasting stations.

## You want more BATTERY and less SERVICE

Battery service is a bug-bear. What is useful to you is continuous, uninterrupted performance. You want to have a battery installed in your car and drive away, happy in the knowledge that it will be a ready reservoir of energy whenever you need it.

The Ray Battery gives guaranteed performance because of its famous Lavier Formula plates—the greatest advance in battery construction since the discovery of the wet cell. They are hard, to withstand the strain of service—highly porous to react quickly and surely to the electrolyte.

Install a Ray and forget the service man.
